from the service for delinquency or misconduct; (2) physical or mental unfitness for the position for which he applies: Provided. That, in the case of any person granted five- or ten-point preference under these regulations who is, in the opinion of the Commission, physically able to discharge efficiently the duties of the position for which examined or to which appointment is proposed, the Commission shall waive the physical requirements, after giving due consideration to the recommendation of any accredited physician, and the age, height, and weight requirements; (3) criminal, infamour, dishonest, immoral, or notoriously disgraceful conduct: (4) intentional false statements as to any

material fact, or deception or fraud.in securing examination or appointment; (5) refusal to furnish testimony as required by Part 14 of this chapter; (6) habitual use of intoxicating beverages to excess; (7) a reasonable doubt as to his loyalty to the Government of the United States; (8) any legal disqualification for appointment.

Any of the reasons stated in the foregoing subparagraphs from (2) through (8) inclusive, shall also be sufficient cause for removal from the service.

(d) Age limits. There will be maximum age limits except where the appointing officer establishes to the satisfaction of the Commission that the interests of sound administration require such limits for a particular position.

A person retired under the age or optional provision of the Civil Service Retirement Act may be reemployed only in the event the appointing authority determines that he is possessed of special qualifications.

(e) Education. No minimum educational requirement will be prescribed in any examination except for such scientific, technical or professional positions the duties of which the Commission decides cannot be performed by a person who does not have such education.

Note: This section supersedes Civil Service Rule V. 5 CFR, Part 5, with respect to posi-tions covered by these regulations.

§ 18.3 Rating and eligibility-(a) Rating. Examination papers shall be rated on a scale of 100.

When an applicant granted five- or ten-point preference under these regulations is rated in examinations where experience is an element of qualifications, time spent in the military or naval service of the United States shall be considered as an extension of time spent in the position in which the applicant was employed immediately prior to his entrance into the military or naval service where such position was similar to that for which he is filing application. In all examinations to determine the qualifications of an applicant credit shall be given for all valuable experience, including experience gained in religious, civic, welfare, service, and organizational activities, regardless of whether any compensation was received therefor.

(b) Prescrence. In examinations for appointment or reappointment five points shall be added to the earned ratings of honorably discharged ex-service men and women who have served in any branch of the armed forces of the United States during any war or in any campaign or expedition (for which a campaign badge has been authorized). The following shall have ten points added to their ratings:

(1) Honorably discharged ex-service men and women who have served in any branch of the armed forces of the United States and who have established the present existence of service-connected disability or receipt of compensation, disability retirement benefits, or pension by reason of public laws administered by the Veterans' Administration, the War Department or the Navy Department.

(2) The wives of honorably discharged service-connected disabled exservicemen as have themselves been unable to qualify for any civil service appointment.

(3) The unmarried widows of honorably discharged deceased ex-servicemen who had served in any branch of the armed forces of the United States during any war, or in any campaign or expedition (for which a campaign badge has been authorized).

As used in this paragraph "honorably discharged" shall mean any separation from active duty in any branch of the armed forces under honorable conditions. A transfer to inactive status, a transfer to retired status, the acceptance of a resignation, or the issuance of a discharge will be considered as covered by the above definition if such separation was under honorable conditions.

(c) Eligible lists. The names of all

(c) Eligible lists. The names of all competitors rated eligible will be entered on appropriate lists in accordance with their ratings; except that,

- (1) The names of cligibles granted five- or ten-point preference under these regulations shall be entered on lists of eligibles in accordance with their respective augmented ratings, and the name of a preference eligible shall be entered ahead of all others having the same rating: Provided That, except on lists of eligibles for positions in the professional and celentific services for which the basic entrance salary is over \$3000 per annum, the names of eligibles granted ten-point preference under these regulations shall be placed at the top of the appropriate eligible lists.
- (2) The order of listing provided for in this section shall, for lists established for the departmental service, be subject to the provisions of § 18.4 (c) of this part relating to the apportionment of appointments among the States and Territories.
- (d) Term of eligibility. Eligibility on any list shall continue until terminated by the Commission for all eligibles on the list or in accordance with § 18.4 (d) of this part: Provided. That eligibility granted under paragraph (e) of this section or as a result of a reopened examination under § 18.1 (b) of this part shall not be terminated in less than one year except in accordance with § 18.4 (d) of this part.
- (c) Restoration to lists of preference employees who have resigned. Any employee entitled to preference under these regulations who resigns shall, upon request, have his name reentered on the registers upon which his name formerly appeared, or any current registers which have succeeded those registers and for which the qualification requirements are substantially the same as for the registers on which his name formerly appeared, in the order provided in paragraph (c) of this section, and shall be eligible for recertification and reappointment in accordance with the procedure provided in \$ 18.4 (d) of this part: Provided. That whenever there is reasonable doubt as to the applicant's present qualifications for the position the Commission may impose further tests of fitness.

Note: This section supersedes Civil Service Rule VI. 5 CFR. Part 6, with respect to positions covered by these regulations.

- § 18.4 Recruiting and placement—
 (a) Procedure in filling vacancies. In conformity with the over-all labor supply policies of the Federal government which have been established in view of the comparatively small number of qualified persons now available for appointment to many positions, and in order to avoid competitive recruitment programs on the part of the agencies of the Federal government, the following procedures in the filling of vacancies must be observed:
- (1) Estimates of personnel needs. Each department and agency shall report to the Commission its estimated future needs for personnel, both in Washington and in the field, in such form and at such intervals as the Commission may prescribe.
- (2) Procedure in filling vacancies. As soon as the need for filling positions becomes apparent, the department or agency concerned must place a requisition for personnel with the Commission.
- (3) Consideration of qualified employees within the service. In filling requisitions for personnel, consideration will be given to qualified employees already in the Federal service. Special consideration will be given to those who may, by order of the Director of the Bureau of the Budget, represent excess personnel where presently employed. Every effort will be made to utilize fully present employees of the Government before new employees are brought in from the outside.
- (4) Developing sources of supply of qualified personnel. The Commission shall, in consultation with the department or agency concerned, work out a program for developing sources of supply of qualified personnel. This program shall be of such a nature that full utilization will be made by the Commission of any resources available to the department or agency concerned.

No activities for developing sources of supply of qualified personnel shall be carried on except with the prior approval of the Commission and under its direction.

- (5) Applications for employment. Applications for employment in any position in the Government service subject to these regulations, whether by original appointment or transfer, filed with any department or agency of the executive branch of the Government shall be promptly transmitted to the Commission or its representatives. A person calling at any department or agency located in Washington, D. C., in connection with obtaining employment shall not be asked to complete an application by such department or agency, except as may be provided for under subparagraph (3) of this paragraph, or except when the person is presently employed or has been formerly employed in the Federal service, and the appointing officer of the department or agency submits an immediate recommendation for the transfer or reemployment of such person. Under the latter circuinstances an application may be taken and forwarded to the Commission.
- (6) Publicity. No department or agency of the Government shall

give any publicity to its needs or prospective needs for personnel through the press, in periodicals, trade or professional journals, over the radio, or otherwise, without the express prior approval of the Commission or its authorized representatives, and, after such approval, only in accordance with the applicable directives and procedures of the Office of War Information. This subparagraph shall apply to all positions which are subject to the War Service Regulations or to the Civil Service Act and Rules.

(7) Furnishing of names. Upon reccipt of a request for names of qualified persons, the Commission shall certify from the head of the appropriate list of eligibles a number of persons sufficient to permit the nominating or appointing officer to consider three names in connection with each vacancy: Provided. That no certification shall be made from a competitive list of eligibles, except of ten-point preference eligibles, when there are three or more names of eligibles granted five- or ten-point preference under these regulations on the War Reemployment List who are qualified and available for the position to be filled.

The eligibles supplied by the Commission will not include the names of persons suggested by the appointing officer unless such persons are within reach for certification in accordance with these regulations. The Commission will not normally certify the name of a person proposed by an agency unless and until it has had a minimum period of two weeks in which to certify qualified applicants in response to the requisition. der emergency circumstances, the Commission may shorten the time period specified in the preceding sentence, and the Commission may require a longer time period in the event of doubt as to the qualifications of the proposed appointee and in the temporary absence of other qualified candidates.

Whenever public announcement is made of a special competitive examination for filling a particular vacancy in which the statement is made that the register will expire upon appointment to the particular vacancy, such vacancy may not thereafter be filled noncompetitively by promotion, transfer, reappointment, or otherwise. Applications for such examination, however, may be accepted by the Commission from persons who are currently in the Federal service, or who have a status for reappointment to such service, and who are specially recommended by the appointing officer at any time before appointment is made to the vacancy involved. The qualifications of such persons will be rated under the competitive standards observed in the examination, and their names will be entered on the register and certified as if they had originally filed an application in the competitive examination.

(8) Return of requisitions. Whenever a requisition for personnel from any department or agency specifies qualifications which are, in the judgment of the Commission, too exacting in the light of the requirements of the job and of present labor market conditions, the Com-

mission will return the requisition. In returning such requisitions, the Commission will indicate its willingness to work out with the department or agency concerned some other solution of its need for personnel, such as the development of a suitable training program and the recruitment of necessary trainees for such a program.

(9) Direct recruiting. The Commission may, upon agreement with the department or agency concerned, recruit persons directly for the filling of spe-

cific vacancies.

(b) Sex. Requisitions for personnel shall be filled without regard to sex unless sex desired is specified by the ap-

pointing officer.

(c) Apportionment. In filling requisitions for appointment in the departmental service of the departments or independent offices procedures shall be followed which will maintain, as nearly as the conditions of good administration warrant, the apportionment of appointments among the several States and Territories and the District of Columbia upon the basis of population, but the names of eligibles who have been granted military preference shall be supplied without regard to apportionment: Provided. That appointments to the following positions shall not be so apportioned:

(1) In all departments and offices: All positions for which the entrance salary is \$1,440 or less per annum and all positions of telephone operators, artisan positions in a recognized trade, craft, or skilled (manual) occupation, helpers and app, entices in such occupations, and other subordinate employees, including laborers, in manual occupations and including foremen of laborers, and other foremen and supervisory artisan positions the incumbents of which are required, in the performance of their duties, to have knowledge of the trades, crafts, or skilled occupations.

(2) In the Government Printing Office, mail-equipment shops, local offices in the District of Columbia, field service of the military staff departments and at Army

headquarters: All positions.

(d) Selection. The nominating or appointing officer shall, with sole reference to merit and fitness, make selections for appointment to each vacancy from not more than the highest three names available for appointment on the certificate: Provided, That the appointing officer need not consider any nonpreference eligible who has been within his reach for three separate vacancies or against whom objection shall be made and sustained for any of the reasons stated in § 18.2 (c) of this part. The second and any additional vacancies shall be filled in like manner.

An appointing officer who passes over an eligible granted five- or ten-point preference under these regulations and tentatively selects a non-preference eligible shall file with the Commission his reasons in writing for so doing and the Commission shall determine the sufficiency or insufficiency of such submitted reasons. The nonpreference eligible tentatively selected may not legally be appointed until the appointing officer has considered the findings of the Commission as to the sufficiency or insufficiency

of the reasons submitted for passing over the preference eligible. Upon receipt of a finding of the Commission that the reasons for passing over a preference eligible are sufficient, the nonpreference eligible tentatively selected may be appointed. If the Commission finds that the reasons submitted are insufficient the appointing officer may (1) submit additional information in support of his reasons, in which case the appointment of the nonpreference eligible may not be made until the appointing officer receives the findings of the Commission on the additional information; or (2) consider the findings of the Commission as to insufficiency and appoint either the preference eligible or the tentatively selected nonpreference eligible. A copy of the appointing officer's reasons and the Commission's findings shall, upon request, be sent to the eligible or his designated representative. If upon certification reasons deemed sufficient by the Commission for passing over his name shall three times have been given by an appointing officer, certification of his name for appointment will thereafter be discontinued, prior notice of which shall be sent to the eligible. Any nonpreference eligible who has been within reach for three separate vacancies in his turn, and any preference eligible who has been passed over three times for reasons deemed sufficient by the Commission. may be subsequently selected, subject to the approval of the Commission, from the certificate on which his name last appeared if the condition of the list has not so changed as to place him in other respects beyond reach of certification.

Note: This section supersedes Civil Service Rule VII, 5 CFR, Part 7, with respect to positions covered by these regulations.

§ 18.5 Appointment—(a) Notification of eligibles. An eligible selected for appointment shall be duly notified in writing by the appointing officer.

(b) Status of appointees. Persons appointed under these regulations will not thereby acquire a classified (competitive) civil service status. Unless otherwise specifically limited such appointments may be for the duration of the present war and for six months thereafter.

- (c) Trial period. Except for persons appointed for a specific period of one year or less, the first full year of service shall be a trial period, satisfactory completion of which shall be considered part of the entrance examination. If and when, after a full and fair trial during this period, the conduct or capacity of the trial appointee be not satisfactory to the appointing officer, the appointee may at any time thereafter during the trial period be so notified in writing, and such notice shall terminate his service. In the case of substitutes in the Postal Service the trial period will be 2,488 hours of active duty.
- (d) Emergency appointment without examination. (1) In cases of extreme emergency where positions must be filled without delay, and where time does not permit the securing of prior authority, emergency appointments for not to exceed thirty days may be made without examination and without specific authority of the Commission. This author-

ity shall not apply to positions in Washington, D. C., or to positions in cities where Regional Offices or Branch Regional Offices of the Commission are located. Such appointments may not be extended beyond the thirty-day period without the express prior approval of the Commission.

(2) Notwithstanding the provisions of this paragraph, all existing special agreements between the Commission and any department or agency are continued in effect until further notice except that such appointments will be made initially under Executive Order No. 9063. Approval of the Commission or the Regional Director or his representative must be obtained for continuation of such appointments beyond the period authorized by such agreements.

(3) Except as provided in subparagraphs (1) and (2) of this paragraph, appointment without examination may be made only with the express prior ap-

proval of the Commission.

(4) In making appointments under this paragraph, the appointing officer shall give first consideration to those qualified applicants who are entitled to military preference under the provisions of these regulations.

(5) The War Service indefinite appointment in the same agency or another agency of any employee serving under an emergency appointment under this paragraph may not be authorized noncompetitively under § 18.9 of this part unless he has a status for reappointment under § 18.8 of this part, or unless he has served 90 days under such temporary appointment and extensions thereof. Service under an emergency appointment of a non-preference eligible who is within reach for indefinite appointment on an appropriate list of eligibles will not be considered as a satisfactory reason for passing over a preference eligible higher on such list and selecting the non-preference eligible.

(e) Noncompetitive appointment necessitated by war program. When, in the discretion of the Commission, the exigencies of the war program demand that a position be filled immediately before the Commission has time to establish a formal list of eligibles the noncompetitive appointment of a qualified person who is immediately available may be authorized: Provided, That such an appointment shall be a temporary appointment not to exceed one year and may be renewed for one additional year at the discretion of the department or agency concerned.

(f) Positions which become subject to the War Service regulations. The following classes of employees may be given war service appointments without prior approval of the Commission:

- (1) Any person holding a position in a public or private enterprise which is taken over by the Federal Government and who thereby becomes an employee of the Government.
- (2) Any Federal employee holding a position which is excepted from the Civil Service Act and rules and the War Service regulations when his position is made subject to the Civil Service Act and Rules or the War Service Regulations.

All war service appointments made under this paragraph shall be reported immediately to the Commission.

No person given a war service appointment under this paragraph shall acquire eligibility for a classified civil service status until six months after the end of the present war. At the expiration of six months after the war, such person may be recommended for a classified civil service status in accordance with § 2.6 of this chapter provided his position becomes a permanent position in the classified civil service and he is still the incumbent thereof.

This section shall not apply to postal employees who become eligible for a classified civil service status in accordance with § 2.7 of this chapter.

Note: This section supersedes Civil Service Rules VII and VIII, 5 CFR Parts 7 and 8, with respect to positions covered by these regulations.

§ 18.6 Promotion—(a) Procedure in promotion. Employees appointed to indefinite or temporary positions under the provisions of these regulations may be promoted within the same department or agency in the same manner and under the same procedure and standards as employees having a classified civil service status: Provided, That no promotion shall be made of persons who are serving under emergency appointments authorized under § 18.5 (d) of this part.

(b) Qualifications. In determining qualifications for promotion with respect to employees entitled to five- or ten-point preference under these regulations, any requirements as to age, height, and weight shall be waived provided any such requirement is not essential to the performance of the duties of the position. After due consideration has been given to the recommendation of any accredited physician, the physical requirements shall be waived in the case of any such employee provided he is found physically able to discharge efficiently the duties of the position for which promotion is proposed.

(c) Promotion of substitutes. Whenever in the Postal Service two or more substitutes are appointed on the same day, they shall be promoted to the regular force in the order in which their names appeared on the civil service register from which they were originally appointed whenever there are substitutes of the required sex who are available and will accept, unless such vacancies are filled by transfer or reinstatement.

Note: For regulations relating to promotion of employees having a classified civil service status, see'5 CFR Part 11.

§ 18.7 Removal—(a) Procedure in removals. The provisions of Part 12 of this chapter shall apply to all persons appointed under the provisions of these regulations except (1) those appointed for period specifically limited to one year or less, (2) those serving the trial period provided for in § 18.5 (c) of this chapter, and (3) those appointed subject to a condition imposed by the Commission which has not been complied with.

(b) Preference employees. In addition to any rights to which he may be entitled under paragraph (a) of this section, any employee (other than those ex-

cepted in paragraph (a) of this section) entitled to five- or ten-point preference under these regulations, who is proposed for involuntary discharge, suspension for more than thirty days, furlough without pay, or reduction in rank or compensation, shall have at least thirty days' advance written notice (except where there is reasonable cause to believe the employee to be guilty of a crime for which a sentence of imprisonment can be imposed), stating any and all reasons, specifically and in detail, for any such proposed action. Such preference employee shall be allowed a reasonable time for answering the same personally and in writing, and for furnishing afildavits in support of such answer, and shall have the right to appeal to the Commission from an adverse decision of the administrative officer so acting. Such appeal shall be made in writing within a reasonable length of time after the date of receipt of notice of such adverse decision: Provided, That such preference employee shall have the right to make a personal appearance, or an appearance through a designated representative, in accordance with rules and regulations of the Commission. After investigation and consideration of the evidence submitted, the Commission shall submit its findings and recommendations to the proper administrative officer and shall send copies of the same to the appellant or his designated representative: Provided further, That the Commission may declare any such preference eligible who may have been dismissed or furloughed without pay to be eligible for entry of his name on the War Reemployment List.

§ 18.8 Reappointment of persons granted preference. (a) Subject to the prior approval of the Commission a former civilian employee of the executive branch of the Federal Government or the District of Columbia Government who is entitled to military preference under these regulations may be reappointed by war service appointment to any position for which he meets the standards as to experience and training established for open competitive examination for such position: Provided, That noncompetitive standards may be used in determining the qualifications of such person proposed by his former agency for reappointment to the same or a lower grade position of the same general type as one in which he previously served in such agency.

(b) Reappointment of persons with civil service status. Subject to the prior approval of the Commission a former civilian employee who would have a status for reinstatement under Part 9 of this chapter and the regulations in force prior to March 16, 1942, may be reappointed by war service appointment to any position for which he meets the standards as to experience and training established for open competitive examination for such positions: Provided, That noncompetitive standards may be used for determining the qualifications of such person proposed by his former agency for reappointment to the same or a lower grade position of the same general type as one in which he previously served in such agency.

(c) Reappointment of persons without civil service status or preference. Subject to the prior approval of the Commission a former civilian employee who does not have a status for reappointment under paragraph (a) or (b) of this section but who has served at least one month under war service indefinite appointment may, within twelve months of separation from such appointment, be reappointed by war service appointment to any position in the agency in which such service was rendered for which he meets the standards as to experience and training established for open competitive examination for such position: Provided, That noncompetitive standards may be used in determining the qualifications of such person for reappointment to the same or a lower grade position of the same general type as one in which he previously served in such agency.

(d) Actual service required. Reappointment under this section must-be for actual service and not primarily for the purpose of bringing former employees within the provisions of the Civil Service Retirement Act as amended.

(e) Trial period. Persons reappointed under this section will be required to serve a trial period of one year in accordance with § 18.5.(c) of this part. In the case of substitutes in the Postal Service the trial period will be 2448 hours of active duty.

(f) Postal Service. When a former classified employee is to be reinstated to a position in the Postal Service, reinstatement will be made under Part 9 of this chapter.

Temporary appointment in the Postal Service may be authorized, when necessary, under § 8.1 of this chapter pending reinstatement or reappointment.

Note: This section supersedes Civil Service Rule IX, 5 CFR Part 9, with respect to positions covered by these regulations.

§ 18.9 Transfer—(a) Transfers in interests of war program. In determining whether an employee can make a more effective contribution to the war program in some other Government position, or in a position in private or public enterprise, for the purpose of this section the Commission will base its finding upon:

(1) The extent to which the skills, abilities, training and experience of the employee are required and will be utilized by the departments, agencies, activities or private or public enterprise concerned; and

(2) The relative importance of the war program of the government activities in which the employee has been employed and to which he will be transferred; and

(3) The relative importance to the war program of the government activity in which the employee has been employed and of the private or public enterprise to which he will be transferred, as indicated by such policies and directives as the Chairman of the War Manpower Commission may prescribe.

(b) Inter-agency transfers. (1) Whenever the Commission shall find that an employee will make a more effective contribution to the war program in a position in some other agency or activity,

transfer will be authorized by the Commission under Directive No. X of the War Manpower Commission (effective September 27, 1942), 7 F.R. 7298, 11050; 9 F.R. 3534. Such transfer shall be authorized subject to the following conditions:

(i) The employee transferred shall be entitled to the reemployment benefits set forth in paragraph (e) of this section.

(ii) The consent of the employee shall not be required, but any employee whose transfer is to be directed without his consent shall be afforded such period of time as the War Transfer Unit of the Contral Office of the Commission or the War Transfer Unit of a Regional Office, as the case may be, may specify to present in writing reasons and evidence that the proposed transfer is inequitable or will impose upon him an undue hardship. The employee's statement will be considered by the War Transfer Unit in the Central Office or in a Regional Office, as the case may be, and if it is decided to direct the transfer, the employee shall be so notified and afforded a reasonable period of time to file an appeal.

Upon receipt of an appeal from the employee, there will be designated by the Chief Law Officer of the Commission (or. in cases involving employees in the field service, by the Regional Director) a committee consisting of an employee representative and an administrative or supervisory official of a Government department or agency not involved in the proposed transfer to consider the employee's statement and such other evidence as it may consider pertinent, and to report to the Commission's Chief Law Officer, or the Regional Director, as the case may be, its findings as to whether the proposed transfer is inequitable or will impose an undue hardship upon the employee. Final decision as to whether the proposed transfer shall be ordered will be made by the Commission's Chief Law Officer, or the Regional Director, as the case may be: Provided. That whenever the Chief Law Officer or the Regional Director does not agree with the findings of the Committee, the case shall be forwarded to the Commission for final decision. If the special committee is unable to agree on a finding, the Chief Law Officer or the Regional Director, as the case may be, shall forward the case to the Commission for final decision with his recommendation.

(iii) Whenever a transfer is authorized under this subparagraph to a position beyond reasonable commuting distance from the home of the employee concerned, the department or agency to which he is transferred shall reimburse the employee for the cost of transporting himself and his household goods, out of funds available to the agency for expenses of travel or transportation, in accordance with Government regulations. No employee shall, without his consent, be transferred to a position at a lower salary than he is receiving at the time transfer is initiated.

(iv) The consent of the agency in which the employee is serving shall not be required, but such agency shall be notified by the Commission and allowed such period of time as the Commission shall specify to present evidence that its

work will be jeopardized by the loss of the employee's services and as to the extent to which the employee's skills, abilities, training, and experience are being and will be utilized in connection with the war program or essential supporting activities in such department or agency. The Commission will consider this, and all other relevant evidence. and unless a decision to the contrary is reached by the Commission, the transfer shall become effective within ten days of the original notification. In the event that the Commission finds that the agency's work will be jeopardized by an immediate transfer of the employee, the transfer shall become effective on such date as the Commission may specify.

(v) An employee desiring to apply for transfer may file his application either with the Commission or with the agency to which he desires transfer. The department or agency receiving applications for transfer from such employees shall forward the applications immediately to the Commission. The applications may be accompanied by request for transfer or reappointment.

(vi) The Commission may, of its own motion, initiate action to effect transfers under this paragraph.

(2) Transfers may be authorized by the Commission without reemployment rights under Executive Order No. 9063 of February 16, 1942, under the conditions listed below; Provided, That in the judgment of the Commission the transfer is not contrary to the best interests of the war program or contrary to the mest effective methods of filling the Federal Government's requirements for manpower in the civilian service or in conflict with the policies or directives of the War Manpower Commission:

(i) When the employee has compelling personal reasons for seeking a transfer and to remain in his present position would be an undue hardship upon the employee, or

ployee, or

(ii) When the transfer under the provisions of Directive No. X of the War Manpower Commission (7 F.R. 7298, 11050; 9 F. R. 3534) may not be made with reemployment rights but, in the judgment of the Commission, would be in the best interests of the Government service.

Should the department or agency in which the employee is serving object to the proposed transfer, the Commission will consider such information and evidence as may be submitted by the department and make a final decision as to whether the transfer shall be authorized.

(c) Intra-agency transfers. The transfer of any employee from one activity or office to another activity or office within the same department or agency may be effected by the head of the department or agency without the prior approval of the Commission, subject to the following conditions:

(1) An employee transferred under this paragraph shall be entitled to the reemployment benefits set forth in paragraph (e) of this section whenever the head of the agency concerned shall find that the skills and qualifications possessed by the employee can be better utilized in the position to which he is transferred,

and that the employee can thus make a more effective contribution to the war program. All transfers under this section involving reemployment benefits shall be reported to the Commission within one week after the effective date of the transfer.

(2) All other transfers within a department or agency shall be made and reported to the Commission as hereto-

(3) The Commission may, of its own motion, initiate action to effect such transfers.

(d) Transfers to private or public enterprise. The release of any employee from any department or agency for employment in a private or public enterprise, including an activity carried on by a State, Territory, or possession of the United States, or by any political subdivision thereof, or by any agency or in-strumentality of a State, Territory, or possession of the United States or their political subdivisions, will be authorized by the Commission under Directive No. X of the War Manpower Commission (effective September 27, 1942) 7 F.R. 7298, 11050; 9 F.R. 3534, whenever the Commission shall find that such employee is qualified to perform work in a critical war occupation (as defined in the Essential Activities and Essential Occupations Directive of the War Manpower Commission, 7 F.R. 4748) and can make a more effective contribution to the war effort in an essential activity carried on by a private or public enterprise, subject to the following conditions:

(1) An employee released under this paragraph shall be entitled to the reemployment benefits set forth in paragraph (e) of this section.

(2) The consent of the employee shall be required for release under this paragraph.

(3) An employee whose release has been authorized under this paragraph shall be carried in a leave-without-pay status in his Federal position for the period of his employment with the private or public enterprise, but not to extend beyond six months after the end of the war.

(4) The consent of the agency in which the employee is serving shall not be required for release under this paragraph, but such agency shall be notified by the Commission and allowed such period of time as the Commission shall specify to present evidence that its work will be jeopardized by the loss of the employee's services and as to the extent to which the employee's skills, abilities, training, and experience are being and will be utilized in such department or agency. The Commission will consider this, and all other relevant evidence, and unless a decision to the contrary is reached by the Commission, the release shall become effective within ten days of the original notification. In the event that the Commission finds that the agency's work will be jeopardized by an immediate release of the employee, the release shall become effective on such date as the Commission may specify,

(5) Action to effect the release of individual employees under this paragraph may be initiated by the employee, the department or agency in which he is

employed, the private or public enterprise concerned, the United States Employment Service of the War Manpower Commission, or the Civil Service Commission.

(e) Unemployment benefits. (1) Any person, except one holding a temporary position, transferred under this section under such conditions as to entitle him to reemployment benefits, who is subsequently involuntarily furloughed or terminated without cause such as would reflect on his suitability for reemployment in the Federal service, shall be entitled to the rights specified below, provided he is still qualified to perform the duties of his position and that he makes application for reinstatement within forty days after the termination of his services, but in no event later than six months after the end of the war.

(i) If transferred to another Federal department or agency, he shall be entitled to thirty days' notice from the department or agency to which he has been transferred, prior to the termination of his services with such department or agency, unless such termination is for

cause.

- (ii) He shall be reinstated within thirty days of his application in the same department or agency and to the maximum extent practicable, in the same locality, in his former position, or in a position of like seniority, status, and pay, in such manner, to the extent consistent with law, that he does not lose any of the rights or benefits to which he would have been entitled had he not been transferred or released, provided that such a position then exists.
- (iii) If such a position, or if the agency or activity in which he was employed, is no longer in existence and such person therefore cannot be reinstated, his name shall be entered on the Reemployment List established pursuant to Executive Order No. 5924 of September 20, 1932, to be considered for certification, ahead of all other lists maintained by the Commission, to positions elsewhere in the Government service for which he is eligible by reason of his civil service status and qualifications.

(2) In the event of the transfer of any employee under a series of transfers, all of which are under such conditions as to entitle him to the reemployment benefits provided in this section, such reemployment benefits shall continue to be applicable to the agency from which the employee was originally transferred.

(3) An employee who transfers within the Government service under such conditions as to entitle him to reemployment benefits, or an employee who has been released from a Government position for employment in an essential activity conducted by a public or private enterprise under such conditions as to entitle him to reemployment benefits, and who, while employed in the position to which transferred or released, enters active service with the armed forces of the United States, shall be entitled to the same reemployment benefits with respect to the Government position from which he was transferred or released as those to which he would have been entitled had he entered active military or naval service while employed in such Government position.

(4) A person initially appointed for the duration of the war who receives a transfer or release under these regulations for the duration of the war, under such conditions as to entitle him to reemployment benefits, will not be required to be reemployed at the cessation of the war in the department or agency in which he was originally employed in view of the fact that his position would no longer exist and in view of the fact that no position of like status would exist. Such person will, however, be entitled to have his name entered on the Reemployment List as provided in this paragraph.

(5) Whenever the filling of any position by promotion from within for an indefinite period is being considered by any department or agency, employees who have been transferred or released under conditions which entitle them to reemployment benefits in such department or agency shall be given the same consideration they would have received had they not been transferred or released, and may be selected for such promotion. In the event of such selection, if such employee is not authorized to return to the position to which promotion was made, the position in question shall be filled only for the duration of such employee's reemployment rights under paragraph (e) of this section, and such reemployment rights shall be applicable to the position to which promotion was

made. (f) Examinations. No employee appointed without competitive or noncompetitive examination may be transferred without qualifying in such appropriate noncompetitive examinations as the Commission may prescribe, except employees who are subject to Title I of the Act of November 26, 1940 (5 U.S.C. 631a, 631b), or any statute or Executive order providing for the acquisition of a classified civil service status. Whenever a transfer involves also a promotion or change in status, the provisions of these regulations regarding promotions and changes in status shall be applicable to such transfers.

(g) Apportionment. The provisions of § 18.4 (c) of this part relating to the apportionment of positions among the several States shall not be applicable to transfers under this section, and such transfers shall not be charged to the quota of any State under such apportionment.

(h) Status of employees. (1) No employee serving under an emergency appointment under § 18.5 (d) of this part may be transferred under this section unless he has a status for reappointment under § 18.8 of this part or unless he has served 90 days under such temporary appointment and extensions thereof. The appointments otherwise of such persons are subject to the provisions of § 13.10 (d) and (e) of this part.

(2) In all transfers under this section, the employee shall retain for all intents and purposes under the civil service laws and rules the same civil service status which he had in the agency from which he was originally transferred.

Any transfer or reappointment of an employee who was originally appointed "subject to investigation" will be subject to the results of the investigation.

(i) Reports. Each department and agency shall submit to the Commission such information as the Commission may require for the effectuation of Directive No. X of the War Manpower Commission (7 F.R. 7298, 11050; 9 F.R. 3534) in such form and at such intervals as the Commission may prescribe.

(j) Post Office Department, field service. This section shall not apply to transfers to or between positions in the field service of the Post Office Department of persons having a classified civil service status; such transfers may continue to be effected under civil service rules and regulations. This section shall apply to transfers to or between positions in the field service of the Post Office Department of persons who do not have a classified civil service status, and to the transfer of employees from the field service of the Post Office Department to positions in other departments or agencies of the executive branch of the Government.

(E.O. No. 8243 dated September 12, 1942, 7 F.R. 7213; E.O. 9376 dated September 23, 1943, 8 F.R. 13037; Directive No. X, War Manpower Commission, dated September 14, 1942, 7 F.R. 7298, 11050; 9 F.R. 3534)

(k) Trial period. Any person who has completed a trial or probationary period during his current period of service shall not be required to serve a new trial period upon transfer under this section. Any person transferred under this section prior to completion of a trial or probationary period may complete his trial or probationary period in the position to which transferred subject to the provision of § 18.5 (c) of this part as to termination of service. Where a person is transferred under this section from a position in which a trial or probationary period is not required, the beginning of the trial period shall be considered as dating from the time of original appointment in the Federal Government during the employee's current continuous service. When a full year of service has been rendered since that date, the employee shall be regarded as having completed his trial period.

(1) Preference employees in transfers of functions. When any or all of the functions of any agency are transferred to, or any agency is replaced by some other agency or agencies, all employees entitled to five- or ten-point preference under these regulations, in such transferred agency, available and qualified for positions in the replacing agency or agencies, shall first be transferred to such positions before such agency or agencies shall appoint additional employees from any other source for such positions, and the Commission will not certify eligibles for such positions as long as such qualifled and available preference employees have not been transferred.

Note: This section supercedes Civil Service Rule X, 6 OFR Part 10, with respect to positions covered by these regulations.

§ 18.10 Release from Government employment—(a) Consent for reappointment, reinstatement, and reemployment. No department or agency will effect the transfer or the appointment, reappointment, reinstatement, or reemployment within thirty days of separation from the

service of any employee, or former employee, as the case may be, of another department or agency without the express prior approval of the Commission.

(b) Employment of short-term employees. A person who is serving or who last served under an appointment limited to six months or less shall not be required to secure the consent of any Government department or agency in order to be appointed, reappointed, transferred, reinstated, or reemployed in any other Government department or agency for a period to extend for the duration of the war and six months thereafter.

§ 18.11 Extent of regulations—(a) Regulations superseded. These regulations shall supersede Parts 3, 5, 6, 7, 8, 9, 10, of this chapter, and all provisions of joint regulations inconsistent with this part for all positions except (unless otherwise specifically provided in this part):

(1) Positions other than those filled by civilian employees of the forces in the Police and Fire Departments of the municipal government of the District of

Columbia;

(2) Positions of policemen in the U.S. Park Police force of the Interior Department.

(3) Postmasters. Section 2.6 of this chapter is suspended as to appointments made under § 18.5 (f) of this part, but said § 2.6 of this chapter shall be applicable to postal employees who become eligible for a classified civil service status in accordance

with § 2.7 of this chapter.

(b) Violations; revocation of delegated authority. Whenever the Commission shall find that any department or agency, or part thereof, has acted in violation of any provision of the civil service rules or of these regulations, the Commission may revoke in whole or in part any authority to act delegated to such department or agency, or part thereof.

§ 18.12 Stabilization of employment. Actions taken under or pursuant to these War Service regulations shall be subject to the directives, orders, regulations and employment stabilization programs of the War Manpower Commission.

No employee of the civilian executive branch of the Federal Government shall be released from Federal employment to accept non-Federal employment except naccordance with applicable War Manpower Commission employment stabilization programs.

`§ 18.13 Restoration of persons having reemployment rights—(a) Persons discharged from the military or naval service. Any civilian employee of the executive branch of the Government who has left or leaves his position (other than a temporary position) in order to perform active military or naval service for the United States, and (1) is honorably separated from active military or naval service and (2) is still qualified to perform the duties of his position, and (3) makes application for reemployment in such position within forty days after his separation from active military or naval service, shall be entitled to the following reemployment benefits:

(1) He shall be reemployed in any position to which, according to the records of the agency, and according to the promotion regulations then in effect, he would have been promoted if he had not been absent to perform military or naval

service:

(2) If such position does not exist, he shall be restored to the position which he held at the time of his entry into the military or naval service;

(3) If neither of the positions referred to in subparagraphs (1) or (2) exists, he shall be restored to a position comparable as to seniority, status, and pay with the position which he held at the time of his entry into the military or naval service.

This paragraph shall apply to employees who were originally appointed for the duration of the war, or for the duration of the war and six months thereafter: Provided, however, That such employees shall not be required to be retained in employment beyond the limitation placed upon their original appointments: Provided further, That no permanent employee shall be removed, nor shall any permanent employee be denied reemployment under this section in order that any employee who was originally appointed for the duration of the war, or for the duration of the war and six months thereafter, may be reemployed under this section.

(b) Time limit. Any person who is entitled to reemployment in the Government service under paragraph (a) of this section, or under any provisions of \$18.9 of this part, shall be reemployed as provided in these regulations within thirty days of his application for reemployment. cebie terminal loan rates:

(a) For No. 1 wheat of the class "red durum wheat"—discount 15 cents per bushel,

(b) For No. 1 "mixed wheat" (containing less than 10 percent of wheats of the classes "durum" and/or "red durum wheat")—discount 2 cents per bushel,
(c) For No. 1 "mixed wheat" (containing

(d) For No. 1 "mixed wheat" grading "amber mixed durum"—discount 5 cents per bushel, and

(e) For No. 1 "mixed wheat" grading "mixed durum"—discount 10 cents per bushel.

The loan rate on No. 1 heavy dark northern spring shall be 1 cent more than the loan rate on No. 1 dark northern spring; the loan rate on No. 1 heavy northern spring shall be 1 cent more than the loan rate on No. 1 northern spring; and the loan rate on No. 1 heavy red spring shall be 1 cent more than the loan rate on No. 1 red spring.

All wheat eligible for loan at the foregoing loan rates must have been shipped on a domestic freight rate basis. The loan rate at the designated terminal market will be reduced by the difference between the freight paid and the domestic rate on any wheat shipped at other than the domestic rate,

The foregoing schedule of loan rates applies to wheat delivered to any designated terminal market in carload lots which has been shipped by rail from a country shipping point to one of the designated terminal markets, as evidenced by paid freight bills duly registered for

transit privileges and other documents as required under the instructions (C.C.C. Wheat Form 1): Provided, That in the event the amount of paid-in freight is insufficient to guarantee minimum proportional rate from the terminal market, there shall be deducted from the applicable terminal loan rate the difference between the amount of freight actually paid in and the amount required to be paid in to guarantee minimum proportional basis on the outbound move-ment; Provided further, That Commodity Credit Corporation will accept in lieu of such bills, warehouse receipts for which a legend, signed by the warehouseman, has been typewritten in the following form, or certificate of such warehouseman containing such an undertaking, or such forms as may hereafter be approved by Commodity Credit Corporation.

The above-described paid freight bill has been officially registered for transit and will be held in accordance with the provisions of paragraph 22 of the Uniform Grain Storage Agreement.

Otherwise a deduction of 6 cents per bushel shall be made. Wheat trucked to a designated terminal market and stored in a warehouse shall have a loan rate equal to the higher of (1) the terminal loan rate minus 6 cents per bushel or, (2) the county loan rate for the county in which the wheat is stored.

(b) Amount of loan at country points. (1) Except for the States and counties hereinafter set forth, Commodity Credit Corporation will determine the loan rate on wheat in storage on the farm or in country warehouses by deducting from the designated terminal market loan value an amount equal to 3 cents more than the all-rail interstate freight rate (in effect on May 16, 1944) from the country warehouse points, plus freight tax, or the shipping point designated by the producer, to such terminal market; except that in the appropriate counties of Illinois, Indiana, Iowa, Michigan, Minnesota, Missouri, Nebraska, Ohio, Oklahoma, Pennsylvania, South Dakota, Arkansas, Texas, and Wisconsin such rates shall be computed on the basis of the average freight rate from all shipping points other than subterminal markets in each county to the appropriate terminal market.

Each approved warehouse will be advised as to the loan rate applicable to

wheat stored in such warehouse. Producers may obtain from the county committee the loan rates applicable to wheat stored on each farm and in the publicarehouses. Loan rates will be published in C. C. Wheat Form 1—Supplement 2, for each State.

The loan rate of eligible wheat stored in approved warehouses (other than those situated in the designated terminal markets) which was shipped by rail may be determined by deducting from the appropriate designated terminal market loan value an amount equal to the transit balance of the through freight rate from point of origin for such wheat to such terminal market, plus freight tax on such transit balance: Provided, That in the case of wheat stored at any railroad transit point, taking a penalty by reason of outof-line movement, or for any other reason, to the appropriate designated market, there shall be added to such transit balance an amount equal to any out-ofline or other costs incurred in storing loan wheat in such position as deter-mined by Commodity Credit Corporation. Arrangements have been made for the railroads to indicate transit balance of the through rate on the inbound paid freight bills on a basis of 100 pounds. To obtain the loan rate as determined above, the warehouse receipts, in addition to other required documents, must be accompanied by the original paid freight bills duly registered for transit privileges; Provided, That Commodity Credit Corporation will accept in lieu of such bills, warehouse receipts for which a legend, signed by the warehouseman, has been typewritten in the following form, or a warehouseman's supplemental certificate containing supplemental such information:

(2) Separate schedules of loan rates will be issued for the States and counties hereinafter set forth:

All counties in New York, New Jersey, Delaware, Maryland, Virginia, West Virginia, North Carolina, Kentucky, Tennessee, and Arizond, In New Mexico, the counties of Bernalillo, Catron, Colfax, Dona Ana, Grant, Harding, Hidalgo, Luna, McKinley, Mora, Rio Arriba, Sandoval, San Juan, San Miguel, Santa Fe, Sierra, Socorro, Taos, Torrance, Union, and Valencia:

The loan rate of eligible wheat stored in approved warehouses in the foregoing area which was shipped by rail in the movement of natural market direction as approved by Commodity Credit Corporation, shall be determined by adding 3 cents per bushel to the county loan rate for the county from which the wheat is shipped and an-amount equal to the transit value of the freight paid from point of origin to markets designated by Commodity Credit Corporation, plus freight tax on the transit value from point of origin to the warehouse, except that eligible wheat originating in Delaware, Kentucky, Maryland, North Carolina, Tennessee, Virginia, or West Virginia, and stored in Cairo, Illinois; Evansville, Indiana; Louisville, Kentucky; Cincinnati, Ohio; Baltimore, Maryland; or Philadelphia, Pennsylvania shall receive the loan rate shown in these instructions: Provided, however, That the loan rate on wheat originating in the counties of Cecil, Kent, Queen Annes, Carolina, Talbot, Dorchester, Wicomico, Somerset, and Worcester in Maryland; all counties in Delaware; and Accomac and Northampton Counties in Virginia, which is shipped to Norfolk, Virginia and stored in the Norfolk terminal elevator of the Norfolk and Western Railroad, shall be the loan rate for the county from which the wheat is shipped, plus the amount of freight per bushel paid, plus 4 cents per bushel. Lending agencies and county committees are advised that in each instance such transit value must be verified by the Regional Director of the Commodity Credit Corporation serving that area. In such cases, the loan documents must be accompanied by the original paid freight bills or certificates of the warehouseman and other required documents as set forth in § 251.3 (a) above. If eligible loan wheat is stored in approved warehouses located at transit points, taking a penalty by reason of back haul, or out-ofline of natural market movement, such penalty or other costs by reason of such movement, as determined by Commodity Credit Corporation, shall be deducted from loan rates as determined above.

In such cases the warehouse receipts in addition to the required documents as set forth in C. C. C. Wheat Form 1, must be accompanied by the original or duplicate original paid freight bills, or certificates of the warehouseman as to such paid freight bills as indicated above.

§ 251.4 Protein premium. A premium shall be added to the loan rate of the subclasses of hard red spring and hard red winter, and of the subclass hard white wheat. Mixed wheat, regardless of the classes of wheat contained in the mixture, will not be eligible for protein premium. Protein premium will be added to the loan rate of farm-stored wheat only where the producer presents a protein certificate issued by a laboratory satisfactory to Commodity Credit Corporation. If the wheat is stored in approved warehouses, the producer must present a protein certificate attached to the warehouse receipt, or present a warehouse receipt or warehouseman's supplemental certificate with protein content indicated thereon.

§ 251.6 Determination of dockage, smut, and garlic. The percentage of dockage shall be determined in accordance with the Official Grain Standards of the United States and the weight of said dockage shall be deducted from the gross weight of the wheat in determining the net quantity available for loan.

In the States of California, Idaho, Oregon, Utah, and Washington, the quantity of smut shall be stated in percentage in accordance with the method set out in paragraph (a) under "smutty wheat" in the handbook of Official Grain Standards of the United States, Revised, 1941, and shall be stated in terms of half percent, whole percent, or whole and half percent, and the quantity of smut so determined in pounds shall be deducted from the weight of the wheat after deduction of dockage. Elsewhere the smut condition of the wheat shall be determined on a degree basis in accordance with paragraph (b) under "smutty wheat," Official Grain Standards of the United States. Where applicable, the words "light smutty" or "smutty" shall be added to, and made a part of, the grade designation.

The garlic condition of wheat shall be determined in accordance with the Official Grain Standards of the United States, and such condition shall be made a part of the grade designation by addition of the words "light garlicky" or the word "garlicky" as determined under such standards.

§ 251.7 Determination of quantity of wheat. Loans shall be made at values expressed in cents per bushel. A bushel will be 60 pounds of wheat free of dockage, when determined by weight, or 1.25 cubic feet of wheat testing 60 pounds per bushel when determined by measurement. A deduction of three-quarters of a pound for each sack will be made in determining the net quantity of the collateral when stored as sacked grain. In determining the quantity of wheat in farm storage by measurement, fractional pounds of the test weight per bushel will be disregarded, and the quantity determined as above will be the following percentages of the quantity determined for 60-pound wheat:

§ 251.8 Farm storage. Wheat stored on the farm must have been stored in the granary at least 30 days prior to its inspection for measurement, sampling, and sealing, unless otherwise approved by State committees and Regional Directors of the Agricultural Adjustment Agency. Chattel mortgages covering farm-stored wheat must be executed and filed in accordance with the applicable State law.

Where the borrower is a tenant, the expiration date of the lease shall be given in section 1 (e) of the chattel mortgage. If the expiration date of the lease is prior to June 30, 1945, the borrower must secure from the owner and other interested parties consent that the collateral may remain in the described storage structure until June 30, 1945, without any charge to the Commodity Credit Corporation other than that agreed to be paid to the borrower for storing the collateral. The consent agreement is set forth in the chattel mortgage. Each producer must designate in section 1 (b) of the chattel mortgage a shipping point reasonably convenient for the delivery of the wheat as determined by the county committee. A separate note and chattel mortgage must be submitted for wheat stored on each quarter section of land.

The Commodity Credit Corporation will accept delivery of all the producer's wheat in the bin or bins in which all or a portion of the grain therein is under loan. The producer will be given credit for the number of bushels so delivered at the loan rate applicable to the grade and class of wheat delivered. If no loan rate has been established for the grade of wheat delivered, the actual delivery value will be furnished by the Regional Director of Commodity Credit Corporation serving the area.

§ 251.9 Storage allowance. A storage allowance of 7 cents per bushel shall be advanced at the time any farm-stored loan is made on the number of bushels placed under loan. A storage payment of 7 cents per bushel shall be earned by the producer (a) if the wheat is delivered to the Commodity Credit Corporation on or after April 30, 1945, or (b) if, pursuant to demand by the Corporation for the repayment of the loan, the wheat is delivered to the Commodity Credit Corporation prior to April 30, 1945, provided such demand for repayment was not due to any fraudulent representation on the part of the producer or the fact that the wheat was damaged, threatened with damage, abandoned, or otherwise impaired. If delivery is made prior to April 30, 1945, with the consent or approval of the Commodity Credit Corporation, a storage payment will be earned in accordance with the terms of the mortgage supplement. Earned storage shall be computed after delivery has been completed and any storage advance not earned shall be repaid to the Corporation. A storage payment cannot be earned on a greater number of bushels than is specified in the chattel mortgage. Any deficiencies due the Corporationwill be deducted from any credits which may be due the producer from the Corporation.

§ 251.10 Public warehouses. Commodity Credit Corporation will accept only insured negotiable warehouse receipts representing eligible wheat issued by public grain warehouses which have executed the Uniform Grain Storage Agreement and have been approved by Commodity Credit Corporation. Warehousemen desiring approval are advised to communicate with the Regional Director of the Commodity Credit Corporation serving the area in which the warehouse is located. A list of approved warehouses will be furnished State or county agricultural conservation committees by Regional Directors. Uniform storage and handling charges and terms of the storage agreement are outlined in the Uniform Grain Storage Agreement. Warehousemen shall not have outstanding at any time warehouse receipts in excess of the normal working or licensed capacity of the warehouse. All wheat pledged as security for a loan on C. C. C. Grain Form B must be stored in the same warehouse.

§ 251.11 Warehouse receipts. Warehouse receipts must be issued in the name of the producer, dated on or prior to the date of the related note, properly endorsed in blank so as to vest title in the holder, issued by approved warehousemen, and must comply with the following provisions:

(a) Each warehouse receipt should set forth in its written terms that the wheat is insured for not less than market value against the hazards of fire, lightning, inherent explosion and windstorm, cyclone, and tornado, or in lieu of this statement it must have stamped or printed thereon the word "Insured."

(b) The wheat represented by each warehouse receipt must be free of all liens for charges prior to unloading in or delivery to the warehouse. Liens for storage charges will be recognized by Commodity Credit Corporation only from May 15, 1944, or the dates of the warehouse receipts, whichever is later.

(c) The warehouse receipt must set

(c) The warehouse receipt must set forth in the written or printed terms the gross weight or bushels, grade and subclass, and such other information as is required by the Uniform Warehouse Receipts Act.

(d) Each warehouse receipt, or the warehouseman's supplemental certificate, in duplicate, properly identified to the warehouse receipt, must show the test weight, protein content (if determined by protein analysis), degree or percentage of smut or garlic and dockage, and must also show the moisture content except in the States of California, Idaho, Montana, Nevada, North Dakota, Oregon, South Dakota, Utah, Washington, and Wyoming. (In those areas where moisture content is required, but it is not customary for country warehousemen to determine the exact moisture percentage, a warehouse receipt representing wheat stored in a country warehouse will be accepted if the moisture content is not shown, provided the grade of wheat does not show the word "tough." In such cases, the warehouseman will be responsible to deliver wheat

not grading "tough" or "sample" due to moisture content.)

§ 258.8 Farm storage. Grain stored on the farm must have been stored in the granary at least 30 days prior to its inspection for measurement, sampling, and sealing, except as approved by State agricultural conservation committees. Chattel mortgages covering the grain must be executed and filed in accordance with the applicable State law.

§ 253.9 Warehouse storage. Commodity Credit Corporation will accept only insured negotiable warehouse receipts covering eligible grain pledged as collateral to notes on C. C. A list of approved warehouses for the area may also be obtained at any State or county agricultural conservation office. All grain pledged as security for a loan must be stored in the same warehouse. Grain moved by rail freight to a warehouse will not command a higher loan value than grain stored on farms or in warehouses located at country points.

§ 253.10 Warehouse receipts. Warehouse receipts must be issued in the name of the producer, must be dated on or prior to the date of the related note, must be properly assigned by an endorsement in blank so as to vest title in the holder, and must be issued by an approved warehouseman. Unless the warehouse receipts are stamped or printed "insured" there must be attached and included in the certificate of the warehouseman a statement that the grain is insured for not less than the market value against the hazards of fire, lightning, inherent explosion, windstorm, cyclone, and tornado. Commodity Credit Corporation will not accept warehouse receipts indicating any lien for charges prior to unloading in or delivery to the warehouse issuing such receipts. Lien for handling and storage charges, unless prepaid through maturity, will be recognized only from May 15, 1944, or the date of the warehouse receipt, whichever is later. Such receipts must set out in their written or printed terms the gross weight or bushels, the grade, test weight, and all other factors and statements required to be stated in the written or printed terms of negotiable warehouse receipts under the provisions of section 2 of the Uniform Warehouse Receipts Act, or be accompanied by a certificate of the warehouseman, identified to such warehouse receipt, setting out such information, and shall be based on the inbound movement or delivery of the grain to an approved warehouse. Warehouse receipts for No. 3 rye, to be eligible, must contain a statement that the rye grades No. 2 or better except for test weight.

§ 253.11 Liens. The grain collateral must be free and clear of all liens, or if liens exist on the collateral, proper waivers must be secured from each lienholder.

§ 253.13 Lending agency. Any bank, cooperative marketing association, or other corporation, partnership, or person, making loans in accordance with these instructions, which has executed

the Contract to Purchase on 1940 C.C.C. Form E.

§ 253.14 Eligible paper. Eligible paper shall consist of notes of the producer. secured by chattel mortgages or warehouse receipts representing grain in existence and undamaged, executed in accordance with these instructions and approved by a member of the county agricultural conservation committee, with State documentary revenue stamps affixed thereto where required by law. Notes executed by an administrator, executor, or trustee, will be acceptable only where acceptable in law.

§ 253.15 Purchase of loans. Commodity Credit Corporation will purchase, without recourse, eligible paper, as defined above, only from lending agencies which have executed and delivered, to the regional office of Commodity Credit Corporation to which notes are submitted, Contract to Purchase, 1940 C. C. C. Form E, obtainable only from such offices. The purchase price to be paid by Commodity Credit Corporation for notes accepted will be the face amount of such notes, plus accrued interest, from the respective dates to the date of payment of the purchase price, at the rate of 11/2 percent per annum. Under the terms of the Contract to Purchase, lending agencies are required to report weekly, on 1940 C.C.C. Form F, all payments or collections on producers' notes held by them, and to remit, with such report, to Commodity Credit Corporation, an amount equivalent to 11/2 percent interest per annum on the principal amount collected from the date of the note to the date of payment.

§ 253.16 Insurance—(a) Grain stored on farms. Commodity Credit Corporation will not require producers to insure their 1944 farm-stored grain placed under loan. In case of a total loss of collateral resulting from an external cause, with the exception of a loss caused by conversion, negligence, or vermin, the Commodity Credit Corporation will mark the note "paid" and return it to the borrower. In case of partial loss of collateral resulting from an external cause, with the exception of a loss caused by conversion, negligence, or vermin, the note will be credited at the loan value plus interest for the number of bushels on which the loss occurred. No loss will be assumed by the Corporation if it is determined that there is a fraudulent representation on the part of the borrower in connection with the loan.

(b) Grain stored in approved warehouses. Warehousemen shall provide insurance against the perils of fire, lightning, inherent explosion, and windstorm, cyclone, and tornado, for the full market value of grain stored in their warehouses as long as receipts are outstanding.

If the sales slips, invoices, bills or other instruments or records customarily kept by him are sufficient to furnish the information specified herein, no additional record system need be installed to meet the requirements hereof. § 501.3 Eligible notes—(a) Validity. The note shall bear the genuine signature of the borrower as maker, shall be valid and enforceable in the jurisdiction in which it is issued, and shall be complete and regular on its face. If more than one borrower signed the note all such signatures must be genuine. If the note is executed for and on behalf of a corporation or in a representative capacity the note must create a binding obligation of the principal.

(b) Acceleration clause. The note shall contain a provision for acceleration of maturity, either automatic or at the option of the holder, in the event of default in the payment of any instalment upon the due date thereof.

(c) Payments. The note shall be payable in equal monthly, semi-monthly, or weekly instalments. The final instalment may be more or less than the other instalments provided that it is not less than one-half or more than one and onehalf times the preceding instalment. A note may not provide for a first payment less than six days nor more than sixtytwo days from the date of the note. However, if fifty-one percent or more of the income of the borrower is derived directly from the sale of agricultural crops, commodities, or livestock produced by him, a note may be made payable in instalments corresponding to income periods shown on the credit application. In such cases, the first payment must be made within twelve months of the date of the note and at least one payment shall be made in each twelve months thereafter, provided that no two payments shall be more than twelve months apart, and the proportion of total principal to be paid in later years shall not exceed the proportion of total principal payable in earlier years. (d) Maturity—(1) Minimum. The note shall not have a final maturity of less than six calendar months from the date of the note.

(2) Maximum.—The maximum permissible maturity of a note evidencing:

(ii) A Class 1 (b) loan is seven years and thirty-two days from the date of the note.

(iii) A Class 2 (b) loan is seven years and thirty-two days from the date of the note, except that if a Class 2 (b) loan is secured by a first mortgage, first dead of trust, or other security instrument constituting a first lien upon the improved property, the loan may have a final maturity not in excess of fifteen years and thirty-two days from the date of the note.

(iv) A combination of any of the above classes of loans shall be no greater than the maximum maturity governing that component part of the loan having the shortest maturity if made alone.

(e) Late charges. The note may provide for a late charge, not to exceed 5 cents for each \$1.00 of each instalment more than fifteen days in arrears. No late charge on a past due instalment may be accrued in excess of \$5.00. In lieu of late charges, notes may provide for interest on past due instalments at a rate not in excess of the contract rate in the jurisdiction in which the note is drawn. The borrower must be billed for the penalties collected as such, and evidence of such billing must be in the file if claim is made under the Contract of Insurance.

(f) Deferred first payment. Loans made on and after July 1, 1944 the proceeds of which are used exclusively for (1) the conversion of heating equipment to the use of any other fuel, the repair of heating equipment, or the replacement of heating equipment if it is worn out, damaged beyond repair, or destroyed, (2) the instalation of loose-fill, blanket, or batt-type insulation, or insulating board, within existing structures, (3) the instalation of storm doors, storm windows, or weather stripping, may provide for a first payment not later than November 1, 1944, unless a later first payment is parmitted by paragraph (c) of this section.

§ 501.4 Maximum amount of loans— (a) Class 1 (a) loan. A Class 1 (a) loan shall not involve a principal amount, exclusive of financing charges to the borrower, in excess of \$2,500.

(b) Class 1 (b) loan. A Class 1 (b) loan shall not involve a principal amount, exclusive of financing charges to the borrower, in excess of \$5,633.

(c) Class 2 loan. A Class 2 loan shall not involve a principal amount enclusive of financing charges to the borrower, in excess of \$3,000.

(d) Maximum amount per property. A Class 1 or a Class 2 loan shall not increase the principal amount outstanding at any time on all Class 1 or Class 2 loans made under Title I of the act after July 1, 1944 with respect to any one piece of property to an amount in excess of \$5,000,

exclusive of financing charges to the borrower.

§ 501.5 Financing charges—(a) Maximum charge. The maximum permissible financing charges, exclusive of fees and charges as provided by paragraph (b) of this section, which may be paid by the borrower for interest, discount and fees of all kinds in connection with the transaction, shall be computed as follows:

(1) Class 1 loans having a principal amount not in excess of \$2,500 shall not have a financing charge in excess of an amount equivalent to \$5.00 discount per \$100 original face amount of a one-year note, to be paid in equal monthly instalments calculated from the date of the note.

(2) Class 1 loans having a principal amount in excess of \$2,500 shall not have a financing charge in excess of an amount equivalent to \$4.00 discount per \$100 original face amount of a one-year note, to be paid in equal monthly instalments calculated from the date of the note.

(3) Class 2 loans shall not have a financing charge in excess of an amount equivalent to \$5.00 discount per \$100 original face amount of a one-year note, to be paid in equal monthly instalments calculated from the date of the note, except that Class 2 (b) loans having a maturity in excess of seven years and thirty-two days shall not have a financing charge in excess of an amount equivalent to \$3.50 discount per \$100 original face amount of a one-year note, to be paid in equal monthly instalments calculated from the date of the note.

Such charges correctly based on tables of calculations issued by the Federal Housing Commissioner are deemed to comply with this section. An increase in the ration of the charge to the average amount outstanding on the debt over the maximum provided in this section, which increase results from the first payment falling due less than thirty days after the date of the note as provided in § 501.3 (c) shall not be deemed to be in conflict with this section.

(b) Permissible additional charges. If the insured takes security in the nature of a real estate mortgage, deed of trust, conditional sales contract, chattel mortgage, mechanic's lien, or other security device for the purpose of securing the payment of eligible loans, the insured may collect from the borrower, in addition to the maximum permissible financing charge as provided in paragraph (a) of this section, the following expenses actually incurred by the insured in connection with the transaction:

Recording or filing fees, documentary stamp taxes, title examination charges and hazard insurance premiums, provided that such costs or expenses are not paid from the proceeds of the loan or included in the face amount of the note. Such costs or expenses shall not be included by the insured as a portion of a claim under the Contract of Insurance and if such costs or expenses are assessed against the borrower, proper evidence thereof should be in the file.

(c) Partial disbursement of proceeds. If the insured in purchasing a note takes

the maximum charge permitted by this section, but employs a "holdback" and does not advance the entire proceeds of the note to the seller, it shall calculate its financing charge on the amount advanced and credit to the account of the seller the difference between the financing charge calculated on the face amount of the note and the financing charge calculated on the amount advanced.

(d) Application of lump sum payments. The acceptance of a voluntary payment of one or more instalments prior to due date shall not be construed as increasing the maximum permissible financing charge as provided in paragraph (a) of this section. However, the excess of any amount paid or applied at one time to an insured obligation above the amount then due thereon, when such excess exceeds the amount of three instalments, shall be applied to the final instalments in reverse order, unless the insured is required by law or is directed by the person making the payment to make some other application, in which case evidence of such direction must be in the file if claim is made upon the Commissioner.

(e) Prepayment rebate. If a note is paid in full prior to maturity, the insured shall make a rebate at a rate not less than 6% per annum of the amount so paid in advance of their due dates, if the maximum permissible financing charge in connection with the transaction is in an amount equivalent to \$5.00 discount as provided in paragraph (a) of this section. If a lesser charge has been taken, the rebate shall be at not less than a proportional rate.

§ 501.6 Credits—(a) Credit application. Prior to making a loan the insured shall obtain a dated credit application executed by the borrower on a form approved by the Commissioner. A separate credit application is required for each loan made or note purchased.

(b) Credit investigation. The credit application, supplemented by such other information as the insured deems necessary, must, in the judgment of the insured, clearly show the borrower to be solvent, with reasonable ability to pay the obligation and in other respects a reasonable credit risk. If, after the loan is made, an insured who acted in good faith discovers any material misstatements or misuse of the proceeds of the loan by the borrower, dealer, or others, the eligibility of the note for insurance will not be affected. However, the insured shall promptly report such discovery to the Commissioner.

(c) Outstanding FHA and direct Federal obligations. The proceeds of a loan shall not be disbursed if the insured has knowledge that the borrower is past due as to either principal or interest with respect to an obligation owing to, or insured by, any department or agency of the Federal Government.

(d) Past due Title I notes at time of purchase. A note shall not be purchased when any installment thereon is past due more than fifteen days at the date of purchase except purchases of notes under the provisions of § 501.12.

(e) Prior approval by Commissioner. Any loan in excess of \$2,500, exclusive of financing charges, or any loan which increases the principal amount outstanding as to all Class 1 or Class 2 loans to any individual borrower to an amount in excess of \$2,500 will be accepted for insurance only upon prior approval of the Commissioner.

(f) Security. The taking of security to secure the payment of a loan is left to the discretion of the insured unless specifically required by the Commissioner in accordance with the provisions of paragraph (e) of this section or of \$501.3 (d) (2) (iii). An insured may permit the substitution or subordination of security provided it can be shown when claim is made that at the time of such action the original security value was not impaired or reduced as a result of such action. Upon presentation of the facts the prior approval of the Commissioner may be obtained by the insured to any proposed substitution or subordination of security.

§ 501.7 Eligible expenditures—(a) Property location. The property to be improved shall be located within the United States, its Territories, or Possessions.

(b) Use of proceeds. The proceeds of a loan shall be used only to finance alterations, repairs, and improvements upon real property or in connection with existing structures, commenced in reliance upon the credit facilities afforded by Title I of the act.

(c) Reliance on credit application. An insured acting in good faith may, in the absence of information to the contrary, rely upon all statements of fact made by the borrower, which are called for by the borrower's credit application, in determining the eligibility of the improvements to the property.

(d) Technical services and direct costs. The proceeds of a loan may be used to pay the cost of architectural and engineering services, and fees paid for obtaining building permits that are directly connected with the eligible alterations, repairs, or improvements financed in accordance with this part.

(e) Supplementing an uninsured obligation. The proceeds of a loan shall not be used to supplement another obligation of the borrower not reported for insurance, the payment of which is to be secured by a prior lien created in connection with the proposed alteration, repairs, or improvements.

§ 501.8 Disbursement of loan proceeds—(a) Disbursement. Before disbursing the proceeds of a loan to one other than a borrower or a borrower and another jointly, the insured shall:

(1) Dealer approval. Have approved the dealer after such investigation as the insured considers necessary to establish to its satisfaction that the dealer is reliable, financially responsible and qualified to perform satisfactorily the work to be financed and to extend proper service to the customer. This approval signed and dated together with the supporting information shall be in the insured's file.

For the purpose of this section the term "dealer" means the one who executes the dealer's completion certificate.

(2) Completion certificates. Obtain a completion certificate signed by the borrower and a completion certificate signed

by the dealer on forms prescribed by the Commissioner. If there are two or more eligible borrowers involved in the transaction, only one signature is required on the borrower's certificate.

(b) Authorization to pay loan proceeds. If the insured is the payee of the note the proceeds shall not be disbursed to one other than the borrower without his written authority.

- § 501.9 Refinancing—(a) General requirements. New obligations to liquidate loans previously reported for insurance pursuant to Title I of the act after July 1, 1944, which may or may not include an additional amount advanced will be covered by insurance, provided they meet the requirements of all applicable regulations and the special provisions of this section.
- (b) Maximum maturity. (1) A Class 1 (a) Ioan or a Class 2 (a) Ioan may be refinanced for an additional period not in excess of three years and thirty-two days from the date of the refinancing, but not to exceed five years from the date of the original note.

(2) A Class 1 (b) loan may be refinanced for an additional period not in excess of seven years and thirty-two days from the date of the refinancing, but not to exceed ten years from the date of the original note.

- (3) A Class 2 (b) loan may be refinanced for an additional period not in excess of seven years and thirty-two days from the date of the refinancing, but not to exceed ten years from the date of the original note, except that if a Class 2 (b) loan is secured by a first mortgage, first deed of trust, or other security instrument, constituting a first lien upon the improved property, the new note may have a final maturity not in excess of fifteen years and thirty-two days from the date of the refinancing, but not to exceed twenty-five years from the date of the original note.
- (4) When a Class 1 loan or a Class 2 loan is made or refinanced and consolidated with another Class 1 loan or Class 2 loan, the new note evidencing the consolidated obligation shall not be for a longer term than that which the component loan having the shortest permissible maturity could have if made or refinanced alone.
- (c) Rebate. The full unearned charge on the original note shall be refunded to the borrower. If no additional advance is made a handling charge not in excess of \$2.00 may be assessed the borrower.
- (d) Special cases. The Commissioner may upon presentation of the facts approve the refinancing or refinancing and consolidation of any loan or loans upon such terms and conditions as he may determine within the limits provided by the act.
- (e) Deferred payments. An agreement to defer payments on a note previously reported for insurance under this part without rewriting the note is not considered refinancing. Such agreement will not affect the insurance coverage on the loan, Provided, That
- (1) Such agreement is evidenced in writing:

(2) Payments shall not be deferred for more than five months from the due date of the last fully-paid instalment;

(3) Such agreement shall not extend the final maturity of the obligation beyond the maturity date of the obligation as provided by its original terms:

(4) The insured may assess the horrower for the cost of such deferment if such charge is not in excess of an equivalent amount of late charges as provided in § 501.3 (e).

§ 501.10 Report of loans. Loans shall be reported on the prescribed form to the Federal Housing Administration at Washington, D. C., within thirty-one days from the date of the note or date upon which it was purchased. Any loan refinanced as provided in § 501.9 shall likewise be reported on the prescribed form within thirty-one days from date of refinancing. In any case, the Commissioner may, in his discretion, accept a late report.

§ 501.11 Claims—(a) Claim application. Claim for reimbursement for loss on an eligible loan shall be made on a form provided by the Commissioner, and executed by a duly qualified officer of the insured. The claim shall be accompanied by the insured's complete credit and collection file pertaining to the transaction.

(b) Claim for default. Claim may be made after default (earliest instalment for which full payment has not been received) provided demand has been made upon the debtor for the full unpaid balance of the note.

(c) Maximum claim period. For the purpose of this section, any payment received on an account, including payments on a judgment predicated thereon, shall be applied to the earliest unpaid instalment, and in the case of:

 Yearly instalment notes, whenever an instalment is twelve months in default claim must be made within thirty-one days thereafter,

(2) All other instalment notes, whenever an instalment is six months in default, claim shall be made within thirtyone days thereafter,

(3) Military service cases, if at any time during default a person primarily or secondarily liable for the repayment of any loan is a "person in military service," as such term is defined in the Soldiers' and Sailors' Civil Relief Act of 1940, the period during which he is in military service shall be excluded in computing the time within which claim must be made for reimbursement under the provisions of this section.

(d) Extension of maximum claim period. Upon presentation to the Commissioner of the facts of a particular case within the allowable claim period prescribed in this section, he may, in his discretion, extend the time within which claim must be made, provided that in computing the claim no interest will be allowed for the period of such extension.

(e) Claim amount. An insured will be reimbursed for its loss on loans made in accordance with this part up to the amount of its reserve as established by § 501.12 as follows:

(1) Net unpaid amount of the loan actually made or the actual purchase price of the note, whichever is the lesser;

(5) Handling fee of \$5.00 for each loan, if judgment is secured, plus 5% of amounts collected subsequent to return of unsatisfied property execution.

(f) Assignment of documents. The note and any security held or judgment taken must be assigned in its entirety and if any claim has been filed in bankruptcy, insolvency, or probate proceedings, such claim shall likewise be assigned to the United States of America.

(g) Form of assignment. The following form of assignment properly dated shall be used in assigning a note, judgment, real estate mortgage, deed of trust, conditional sales contract, chattel mortgage, mechanic's lien, or any other security device in event of claim:

(h) Election of action. Where a real estate mortgage, dead of trust, conditional sales contract, chattel mortgage, mechanic's lien, or any other security device has been used to secure the payment of a loan made under the provisions of Title I of the act, the insured may not both proceed against such security and also make claim under its Contract of Insurance, but shall elect which method it desires to pursue.

§ 501.12 Insurance reserve—(a) Legal limit. Subject to the limitation on the total liability which may be outstanding at any time as stipulated in section 2 of Title I of the act, the Commissioner, in accordance with § 501.11, will reimburse any insured for losses sustained by it up to a total aggregate amount equal to 10% of the total amount advanced on all eligible loans made by it after July 1, 1944, and reported for insurance during the time its Contract of Insurance is in force.

(b) General insurance reserve. There shall be established for each insured a general insurance reserve equal to 10% of the aggregate amount advanced on all loans originated by it on and after July 1, 1944, pursuant to the provisions of this part.

(c) Transfer of insured notes. In all cases involving the transfer of notes purchased without recourse, guaranty or repurchase agreement, provided no instalment payment on any note is past due more than one calendar month at the time of the purchase, the insurance reserve shall be transferred to the general insurance reserve of the purchasing institution on the basis of 10% of the actual purchase price or net unpaid original advance, whichever is the lesser.

(d) Ear-marked insurance reserve. Where the buying and selling institutions desire to transfer an insurance reserve in excess of 10% of the actual purchase price of the notes involved or in excess of 10% of the net unpaid principal advanced on the notes involved, the insurance reserve so transferred shall be placed in an ear-marked insurance reserve, which reserve shall be available only for the payment of those losses arising from the notes so transferred and such losses shall be payable only to the extent of such reserves. When the notes so transferred have all been fully paid to the purchasing institution, it shall so notify the Commissioner.

(e) Special reserve agreements. The transfer of insurance reserve in a manner, or under conditions not provided in paragraph (b) or paragraph (c) of this section, shall have the prior approval of the Commissioner.

Chapter IX-War Production Board

Subchapter B-Executive Vice-Chairman

AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, 23 amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1643, 8 F.R. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

PART 1010—SUSPENSION ORDERS [Suspension Order S-571] HOME BUILDERS CORPORATION

Home Builders Corporation is a corporation organized under the laws of Nevada with its office and place of business in Las Vegas, Nevada. In January, 1942, it obtained approval of two applications on form PD-105 for permission to build and for preference rating assistance to secure materials to be used in the construction of eighty-seven dwelling units in Mayfair Tract No. 1, in the City of Las Vegas, Nevada. On January 21 and February 23, 1942, the War Production Board on two Preference Rating Orders P-55 assigned preference ratings for the acquisition of the materials described in the applications. Approximately eighty-five houses were completed with War Production Board permission and material obtained on preference ratings so granted. The applications and the preference rating orders contained certain promises and conditions concerning use and disposition of the houses. On November 16, 1942, c Regional Housing Specialist of the War Production Board by a letter advised the respondent that it could modify the promises and conditions contained in the applications and preference rating orders in a manner more favorable to respondent, and certain of the promises and conditions were restated in this letter.

In disposing of these houses, the respondent violated the promises and conditions contained in the applications and preference rating orders as modified by the Regional Housing Specialist in the following respects: One of the promises contained in the PD-105 Applications and not relaxed by the Regional Housing Specialist was, "I will make every reasonable effort to grant preference as to occupancy to persons engaged in National Defense Activities," but the respondent made no sincere or reasonable effort to make the houses so available to persons engaged in National Defense Activities; the respondent sold five of the houses to persons who were not engaged in National Defense Activities. Another of the promises and conditions was that the selling price of each house would not exceed \$4,500, which amount was subsequently increased by the Regional Housing Specialist to \$5,000.; the respondent sold twenty-seven of the houses for amounts in excess of \$5,000.

These actions by the respondent have misused critical materials and facilities in connection with operations under the priority and allocation controls of the War Production Board, and have hampered and impeded the war effort of the United States. The responsible officers of the respondent were aware of the promises and conditions contained in the

PD-105 Applications, the P-55 Preference Rating Orders, and the letter of the Regional Housing Specialist dated November 16, 1942, and the violations must be deemed wilful. In view of the foregoing, it is hereby ordered, that:

§ 1010.571 Suspension Order No. S-571. (a) Deliveries of material to Home Builders Corporation, its successors or assigns, shall not be accorded priority over deliveries under any other contract or order and no preference rating shall be assigned, applied or extended to such deliveries by means of preference rating certificates, preference rating orders, general preference orders or any other orders or regulations of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(b) No allocation, including allotments, shall be made to Home Builders Corporation, its successors or assigns, of any material or product the supply or distribution of which is governed by any order or regulation of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(c) Nothing contained in this order shall be deemed to relieve Home Builders Corporation, its successors or assigns, from any restriction prohibition, or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on June 28, 1944, and shall continue in effect until December 31, 1944.

Issued this 21st day of June 1944.

SEC. 9. Definitions. (a) As used in this regulation the term:

"Base period" means the period June

23, 1944 to June 27, 1944, inclusive.

"Gum rosin" means the vitreous transparent or translucent brittle mass congealed from the molten condition remaining after the extraction of gum spirits of turpentine in the distillation of oleoresin exuded from the living pine

"Grade" refers to the grade as established by the Naval Stores Act (42 Stat. 1435; 7 UCS, Secs. 91-99).

"Purchaser of the same class" refers to the practice adopted by the seller in setting different prices for gum rosin for sales to different purchasers or kinds of purchasers (for example, manufacturer, wholesaler, jobber, retailer, government agency, public institution, individual consumer) or for purchasers located in different areas or for different quantities or in different containers or under different conditions of sale.

"Per 100 pounds" means "Per 100 pounds net".

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942, as amended, shall apply to other terms used in this regulation.

SEC. 10. Maximum prices for gum rosin—(a) Sales on the Savannah, Georgia, Cotton and Naval Stores Exchange. Maximum prices for sales of gum rosin on the Savannah, Georgia, Cotton and Naval Stores Exchange shall be:

(b) Sales other than on the Savannah, Georgia, Cotton and Naval Stores Exchange. For sales other than on the Savannah, Georgia, Cotton and Naval Stores Exchange you are to determine your maximum price by reference to the maximum prices for sales on that Exchange. To find your maximum price per 100 pounds for sale of any grade to explained below. This maximum price applies at a point in accordance with your customary practice. As used in any class of purchasers you proceed as this paragraph (b), "differential" means a dollar and cents difference.

(1) If during the base period June 23, 1944 to June 27, 1944, inclusive, you delivered the same grade of gum rosin to the same class of purchasers, you find your maximum price by adding to or subtracting from the maximum price per hundred pounds established in (a) above for sales of the same grade on the Savannah Exchange your base period differential. This differential is the most favorable from the price for that grade listed on the Savannah Exchange which you received on any delivery of the same grade to a purchaser of the same class during the base period. The price listed on the Savannah Exchange which you are to use to determine the differential for any delivery during the base period is the listed price for that grade on the Savannah Exchange on the day on which the Exchange was open for business next preceding the day on which the delivery was made.

Example: During the base period you made two sales of K grade rosin to the came class of purchasers. On the first delivery the price you received was 5 cents per 100 lbs. less than the Savannah Exchange quotation for K grade on the preceding day; on the eccond delivery your price was 2 cents per 100 lbs. more than the Exchange quotation for K grade on the preceding day. Your base period differential is 2 cents per 100 lbs. premium and your maximum price for K grade to that class of purchaser is \$6.05 + 2 cents or \$6.07 per 100 lbs.

(2) If during the base period your only deliveries of the same grade of rosin were made to a different class of purchasers, you find your maximum price by first determining your maximum price according to (1) above for sales to the different classes of purchasers, and then adding to or subtracting from that maximum price your customary differential between the two classes of purchasers.

Example: In the base period your only deliveries of K grade were in bags, less than carload. For such sales your maximum price determined according to (1) above is \$5.85 per 100 lbs. You now wish to find your maximum price for cales in drum carloads. Customarily you charge 10 cents per 100 lbs. more for sales in drums than for sales in bags, and 5 cents per 100 lbs. less for carload than for less than carload cales. Your maximum price for drum carload cales of K grade is \$5.85+10-.05 or \$5.90 per 100 lbs.

(3) If during the base period you did not deliver the same grade of rosin, you find your maximum price by first determining your maximum price according to (1) and (2) above for sales to the same class of purchasers of the most nearly similar grade which you delivered during the base period and adding to or subtracting from this maximum price the differential between the Savannah Exchange maximum prices for these grades in paragraph (a) above.

Example: During the base period you delivered only N and K grades. You now wish to sell WW. The most nearly similar grade you cold in the base period is N. Your maximum price to a particular class of purchasers for N grade according to (1) and (2) above is \$6.00. The maximum price for N in paragraph (a) is \$6.20, for WW is \$6.50. The differential is a premium of \$9.30 and your maximum price for WW is \$5.00+20 or \$6.30 per 100 lbs.

(4) If you cannot determine your maximum price according to (1), (2) or (3) above, your maximum price for sales of any grade to any class of purchaser shall be the maximum price determined under (1), (2) or (3) above by your closest competitor for sales of the same grade of rosin to the same class of purchasers.

Effective date. This regulation shall become effective June 28, 1944, and shall, unless earlier revoked or replaced, expire at 12 o'clock midnight, August 27, 1944.

Note: All record keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1842.

If you are a manufacturer of any item of jewelry made from cowry shells or cat's eyes, you determine your maximum prices for such items in the following manner: First, multiply the number of shells used by the price per shell listed in the Shell Price Table below, for the type and size of shell used. To this amount add the net cost of other materials used in the article being manufactured, which in no case may be higher than the maximum wholesale price. Then multiply this total by 1.50. The resulting price is your maximum price.

Norz: The meaning of certain terms in this regulation is further explained and defined in section 19. The terms explained and defined are put in quotation marks the first time they appear.

SECTION 1. Ceiling prices for "eating and drinking establishments" in operation during April 4 to 10, 1943. You must observe all the following rules:

(a) General rule. Your ceiling price for any "meal," "food item," or "beverage," except coffee, is the highest price at which you offered the same meal, food item, or beverage between April 4 and 10, 1943.

(b) New meals, foods items, or beverages. If you did not "offer" a particular meal, food item, or beverage between April 4 and 10, 1943, figure your cailing price as follows:

(1) If you offered it at any time between March 7 and April 3, 1943, and you have and retain menus or other records of the prices you charged then, your ceiling price is the highest price at which you offered that particular meal, food item, or beverage during that period.

(2) Your ceiling price for all other meals, food items, or beverages is a price "in line" with your other ceiling prices. A price for a meal (or food item or beverage) is "in line" with the price of another meal (or food item or beverage) if the customer gets the same value for his money in terms of quality and size of portions and if the margin over current raw food costs is the same. Any ceiling price figured under this subparagraph (2) cannot be more than the highest price at which you offered a meal, food item or beverage of the same class between April 4 and 10, 1943 (see paragraph (d) below). If you did not offer a meal, food item, or beverage of the same class during April 4 to 10, 1943, figure your price under section 4 below.

(c) Coffee. Your ceiling price for hot coffee is the highest price you charged (or if you were not in business then, your closest competitor of the same type charged) between October 4 and 10, 1942. However, before you may charge more than five cents per cup or pot (including cream and sugar), you must file a statement with your local "War Price and Rationing Board", showing that your price (or if you were not in business then, the price of your closest competitor

^{*}Copies may be obtained from the Office of Price Administration.

of the same type) was more than five cents during that period. If your establishment is subject to Restaurant Maximum Price Regulation No. 1, the statement must be filed with the Restaurant Price Branch, Office of Price Administration, Washington, D. C. The statement must be in the following form:

This is to certify that our prices (or where applicable, our competitor's prices) for hot coffee during the week of October 4 to 10, 1942, were as follows:

Name of establishment

Address of establishment

If you had price differences depending on class of meal or beverage (see paragraph (d) below), show them in the statement. You must keep a copy of the statement in your establishment for in-

spection by any person.

(d) Classes of meals, food items, and Basic rule. Meals, food beverages: items, and beverages are divided into classes (see paragraph (e) below for a description of these classes). With the exceptions listed below, you may not charge more for any meal, food item, or beverage than the highest price at which you offered a meal, food item, or beverage of the same class during the base period April 4 to 10, 1943 (October 4 to 10, 1942, in the case of coffee, and March, 7 to April 3, 1943, for particular meals, food items, or beverages offered then but not during April 4 to 10, 1943, as stated in paragraph (b) (1) above).

(1) If you customarily charged higher prices on holidays, such as Thanksgiving, Christmas, or New Year's Day, you may continue to charge the higher prices on such holidays. But your prices for holidays may not be more than fifteen percent higher than your Sunday prices for meals, food items, or beverages of

the same class.

(2) Your ceiling prices for New Year's Eve are the prices you charged on New Year's Eve 1942, for meals, food items, and beverages of the same class. You must keep available for inspection menus or records of the prices you charged on New Year's Eve 1942.

(e) Classes of meals, food items, and beverages: Description. The "class" in which any meal, food item, or beverage belongs depends on the following tests:

- (1) Whether the food item, the beverage, or the entree (main dish) of the meal falls into one of the groups listed in Appendix A. For example, steak dinners are in a different class than fish dinners, and steak dinners are in a different class than steak served a la carte.
- carte;
 (2) What it is usually called; for example, breakfast, lunch, afternoon tea, dinner, supper;
- (3) The day of the week or the time of the day it is served, if that has been a customary basis for charging different prices; for example, a Sunday meal is in a separate class if you customarily

!

charged different prices on Sunday during the base period stated in paragraph (d) above:

(4) The nature of the service you give, if that was a customary basis for charging different prices during the base period stated in paragraph (d) above, for example, banquets, special group luncheons, hotel room service are separate classes of meals, food items, or beverages, if you customarily charged different prices for them during the base period.

The class into which a meal, food item, or beverage belongs may depend on more than one of the tests listed above. To decide the proper class you must use all the tests which apply. For example, if you charged the same price for a particular meal, food item, or beverage whenever you served it during the base period stated in paragraph (d) above, you must use only the first test. On the other hand, if you charged different prices at different times of the day or on different days of the week during the base period, you must use at least the first and third, and any other tests which apply. For example, a steak dinner served on Sunday in a guest room in a hotel may require you to use all the tests listed.

EXPLANATORY SUMMARY OF ABOVE RULES

You must not charge more for any meal, food item, or beverage than the highest price at which you offered the same meal, food item, or beverage in the base period stated in paragraph (d) above. In addition, you must not charge more for any meal, food item, or beverage than the highest price at which you offered a meal, food item, or beverage of the same class during the base period. This means that if you sell a meal, food item, or beverage that you did not sell during the base period, your price for it canont be more than your ceiling price for a meal, food item, or beverage of the same class sold during the base period. It does not mean that your ceiling price for any item is the highest price you charged for an item of that class during the base period. For example, you will note in Appendix A that roasts and hamburger are in the same class. If you served a roast for 75 cents during the base period and hamburger for 50 cents, 75 cents is your ceiling price for a roast and 50 cents is your celling price for hamburger. You cannot charge 75 cents for hamburger just because you charged 75 cents for a roast and they are both in the same class. However, if you introduce a new item of the same class (for example, swiss steak), your price for that may go as high as 75 cents but only if the customer received the same value in terms of quality and size of portion and your margin of the raw food cost is about the same as for the roast or another item in the same class.

- (f) Substitution of food items. You may substitute for any food item or beverage in a meal any other food item or beverage not offered during April 4 to 10, 1943, without refiguring your ceiling price only if the substitute food item or beverage costs at least as much and also gives customers at least the same value as the food item or beverage substituted and is in the same class. Otherwise, you must refigure your ceiling price for the meal in accordance with paragraph (b) above.
- (g) Price ranges of meals, food items and beverages. (1) Your customers must be given a choice of meals, food items, and beverages in the same price ranges as they had during April 4 to

10, 1943, or your first week of operation if you were not open then.

(2) You must offer at least as many meals, food items, or beverages in each price group at and below your middle price group as you did during April 4 to 10, 1943, or your first week of operation if you were not open then. Your middle price is the price nearest the middle of your price range. For example, if you had two breakfasts at 25 cents, three at 30 cents, and two at 35 cents, 30 cents is your middle price group, and you must continue to offer at least two breakfasts at 25 cents and at least three at 30 cents.

Sec. 2. Rules for establishments not in operation during April 4 to 10, 1943, but in operation before July 31, 1944. Take as your ceiling prices the prices you properly established under the Regional or District restaurant regulation, if any, which was applicable to you. You must also observe all the rules stated in Section 1 but, in applying those rules, substitute the date of your first week of operation for April 4 to 10, 1943, wherever it appears in section 1. If no restaurant regulation was applicable to you, figure your price under section 3.

SEC. 3. Rules for new establishments. This section applies to establishments which opened after July 31, 1944, and also to establishments which opened after April 10, 1943 and before July 31, 1944, but were not subject to Regional or District restaurant regulations.

(a) Competitor's prices. Take as your ceiling price the ceiling price of your closest competitor of the same type (in

the same locality).

(b) Application for prices. If there is no competitor of the same type in the same locality, you must file an application with your OPA District Office for approval of ceiling prices in line with the level of ceiling prices otherwise established by this regulation. The application must contain the following information and any other information which OPA may request:

(1) Your name and address and the name and address of your establishment.

- (2) A brief description of the business you operate or plan to operate, giving such information as seating capacity, estimated number of people to be served, type of equipment, and type of establishment. Also submit a copy of your proposed menu if you have one.
- (3) Your ceiling prices or proposed ceiling prices and classes of meals, food items, or beverages you serve or plan to serve. In preparing the list use the classes of food items and beverages listed in Appendix A.
 - (4) The date you open or plan to open.
- (5) The names and addresses of the two nearest establishments most like yours.

SEC. 4. Rules for establishments offering new classes of meals, food items, or beverages—(a) Competitor's prices. If you cannot figure a ceiling price for a new class of meals, food items, or beverages under the above sections, take as your ceiling price the ceiling price of your closest competitor of the same type (in the same locality).

¹⁸ F.R. 8845, 12557, 15254, Food and Drinks sold for Immediate Consumption in Dining Cars.

- (b) Application for prices. If there is no competitor of the same type in the same locality offering that class of meals, food items, or beverages, you must file an application with your OPA District Office for approval of ceiling prices in line with the level of ceiling prices otherwise established by this regulation. The application must contain the following information and any other information which OPA may request:
- (1) Your name and address and the name and address of your establishment.
- (2) A brief description of the business you operate, giving such information as escating capacitly, number of people served per day, gross sales for the last thirty days, type of equipment, and type of establishment. Also submit a copy of your present menu.
- (3) The additional meals you plan to serve and the proposed ceiling prices with their raw food costs;
- (4) The names and addresses of the two nearest establishments most like your, offering the same type of menuryou plan to serve.

SEC. 5. OPA approval and revision of prices established under Sections 3 and 4.

(a) You may not sell the meals, food items, or beverages for which maximum prices are requested under section 3 (b) or section 4 (b) until those prices have been approved by OPA, but the proposed prices shall be considered approved twenty days after mailing the application (or all additional information which may have been requested), unless, within that time, OPA advises you that your prices have been disapproved.

(b) OPA may at any time disapprove or revise ceiling prices proposed or established under sections 3 and 4 so as to bring them into line with the level of ceiling prices otherwise established by this regulation for eating and drinking

places in the same area.

Sec. 6. Seasonal items. Figure your price for a seasonal food item as follows: First, figure your price under the applicable section of this regulation. You must reduce that price to the extent necessary to reflect seasonal changes in raw food costs, but you cannot increase your price even if your costs increase. However, you need not reduce your ceiling price for a seasonal item if, in accordance with your customary practice, it was based upon estimated average raw food costs for the entire season and you customarily charged the same price during the entire season. A "seasonal food item" is one that you usually sell only during certain times of the year, such as fresh oysters, fresh trout, fresh corn on the cob, fresh berries, and fresh melons.

Sec. 7. Transfers of business. If you lease or acquire another's business, assets, or stock in trade, your ceiling prices and your duties under this regulation are the same as those of the previous proprietor. He must turn over to you all records which are necessary to enable you to comply with the records and filing provisions of this regulation.

Sec. 8. Rules for seasonal operators. If your establishment was in operation during April 4 to 10, 1943, and if more than 80 percent of your volume is cus-

tomarily done in a seasonal pariod of not more than four months, you may, during that seasonal period, charge prices no higher than you charged for meals, food items, or beverages of the same class during the same seasonal period in 1943. At the end of the season and until the season starts again, you may not charge more than your celling prices figured under section 1.

Sec. 9. Rules for operation of several establishments. (a) If you own or operate more than one establishment, you must do everything required by this regulation for each place separately.

- (b) If you own or operate more than one establishment and close one and open another in the same neighborhood, your ceiling prices and duties for the new establishment under this regulation are the same as the one you closed.
- (c) If you own or operate more than one establishment located in two or more OPA districts and have established or want to establish the practice of charging uniform prices in all or certain of your establishments, you may apply for a uniform pricing order to the Restaurant Price Branch, Office of Price Administration, Washington 25, D. C. The application should contain the information required by Revised Supplementary Order No. 13.² The Price Administrator may on his own motion establish prices for sellers owning or operating more than one establishment and may for this purpose require sellers to furnish necessary information.

SEC. 10. Moving your establishment or changing type of operation. If you move your establishment or change your type of operation, you must keep the same prices and observe the same requirements as before. However, if you make a major change in your type of operation and your ceiling prices cause you substantial hardship, then, upon application by you before you change your type of operation, or within twenty days thereafter, the Office of Price Administration may establish different prices. You must file such application with your District Office and furnish all the information required by paragraph (b) of section 3 and show how your present prices would cause you substantial hardship.

SEC. 11. Taxes. If during April 4 to 10, 1943, you stated and collected, separately from the price you charged, the amount of any tax on the sale of food or beverage (or on the business of selling food or beverage if the tax is measured by the number or price of the meals, food items, or beverages), you may continue to do so. You may also state and collect separately the amount of any new tax or increase in a tax of that kind.

Sec. 12. Prohibitions—(a) Sales at higher than ceiling prices. If you own or operate an eating or drinking establishment, you must not sell or offer any meal, food item, or beverage at a price higher than the ceiling price (maximum price) established by this regulation. Of course, you may charge lower prices than your ceiling prices at any time.

- (b) Evasive practices. You must not do anything which will result in an evasion of this regulation, including the following:
- (1) You may not drop food items from meals or reduce the quantity or quality of any meal, food item or baverage, unless you reduce your price accordingly. The rule for figuring the lower "in line" ceiling price is stated in subparagraph (2) of section 1 (b).
- (2) You may not increase your price for a meal, food item or beverage because of an improvement in the quality or increase in the quantity of the food, or beverage served or the addition or substitution of side dishes.
- (3) You may not withdraw the offer, or increase the price, of any meal ticket, weekly rate, or other arrangement, by which customers may buy food for less than when they buy it by item or meal.
- (4) You may not increase any cover, minimum, bread-and-butter, service, corkage, entertainment, checking, parking, or other special charges, or increase any extra charge for the sale of a food item or meal to be eaten off the premises. or make any of these charges that were not in effect on April 4 to 10, 1943. However, a cover or minimum charge in effect April 4 to 10, 1943, may be increased where it was your practice to vary the charge in accordance with the type of entertainment offered, and the increase does not cause the charge to go above the highest charge made in 1943 under the same conditions. If during April 4 to 10, 1943, you had any of the above charges on one or several days of the week or at certain times of the day, you may not make the charge on other days of the week or other times of the day.
- (5) You may not drop a "no tipping" practice, unless you reduce your price accordingly.
- (6) You may not require, as a condition of selling a meal, food item, or beverage, the purchase of other meals, food items, or beverages, unless expressly required to do so by State or local laws.
- (7) You may not reduce the selection of meals offered at table d'hote prices when the food items you customarily offered in such meals are being offered at a la carte prices which, when added together, total more than the table d'hote prices for the complete meals or give your customers less value for their money.
- money.

 (8) You may not make merely a token offering of meals, food items, or beverages in required price ranges or price groups at or below your middle price group (see section 1 (g))—that is, not prepare and offer enough to meet expected demands.

Sec. 13. Permitted practices. You may do any of the following things when necessary because of rationing or allocation restrictions even though you did not do them during April 4 to 10, 1943:

(1) You may limit your customers to one pat of butter per meal, or eliminate it entirely. If you drop it altogether, you must serve with each meal a substitute, such as jam, jelly, marmalade, peanut butter, etc.;

²⁹ F.R. 5791.

(2) You may drop or reduce the quantity of condiments, such as ketchup, chili

sauce, etc.;
(3) You may reduce the amount of sugar served with any beverage or food item:

(4) You may limit the amount of cream served with any food item or beverage or you may supply milk.

However, if you continue to serve these items as you did during April 4 to 10, 1943, or your first week of operation if you were not open then, you cannot make any additional charge for them.

Sec. 14. Records—(a) Customary records. You must preserve all your existing records relating to your prices, costs and sales. You must also continue to maintain such records as you ordinarily kept. All such records shall be subject to ex-

amination by the OPA.

(b) Records of the base period. You must keep available for examination by any person during business hours a copy of each menu used by you during April 4 to 10, 1943, or if you did not use menus, a list of the highest prices you charged during April 4 to 10, 1943 or your first week of operation if you were not open then.

(c) Future records. You must keep for examination by the OPA two each of the menus used by you each day. If you did not use menus, you must prepare in duplicate, and preserve for such examination, a record of the prices charged by you each day, except that you need not record prices which are the same as, or less than, prices you previously recorded for the same meals, food items or beverages. If you customarily used menus you must continue to use them.

Sec. 15. Filing of menus. (a) If you open for business after July 31, 1944, you must file with your War Price and Rationing Board, within three weeks after the first Sunday of operation, a copy of each menu, bill of fare, or other price list of meals, food items, and beverages, as well as a copy of any special charges, such as cover, minimum, bread-and-butter, service, corkage, entertainment, checkroom, and parking in use during the seven day period beginning with the first Sunday that your place was open for business. If you did not use menus, bills of fare, or price lists in that period, or if you did not list all meals, food items, or beverages then offered, you must file with the Board a list in menu form showing the prices which you charged during the seven-day period for meals, food items or beverages which are not shown on any menus, bills of fare or price lists, which you may file hereunder. Each menu or list so filed must be signed by you. and must also have upon it the name and address of your establishment. You must keep a copy of each such menu or

(b) Failure to comply with filing requirements of General Order No. 50. (1) If you have not filed signed and complete menus, bills of fare, price lists, or records of special charges (such as cover, minimum, bread-and-butter, service. corkage, entertainment, checkroom, or parking charges) with your War Price and Rationing Board as was required by General Order No. 50, you must file them with your War Price and Rationing

Board within ten days after the effective date of this regulation. Such prices as filed are subject to approval by the Office of Price Administration. A copy of the applicable filling provisions of General Order 50 may be found in Appendix B of this regulation.

(2) If you did not comply with the filing provisions of General Order No. 50, and do not do so within the ten days provided, you may not sell any meal, food item, or beverage or collect any special charge for which you have not made a proper filing until you have made a proper filing with your War Price and Rationing Board and until your filed prices have been approved by the Office of Price Administration.

(3) If the Office of Price Administration finds that your prices filed under this paragraph (b) are excessive in relation to the ceiling prices of other comparable establishments in the same area, it may issue an order establishing ceiling prices for your business in line with those

other ceiling prices.

SEC. 16. Posting—(a) Statement on menus. Beginning July 31, 1944, each menu used by you must have clearly and plainly written on it, or attached to it, either the statement previously required under any Regional or District restaurant regulation, or the following statement:

All prices are our ceiling prices or below. The ceiling is based on prices charged by us from April 4 to 10, 1943. Our menus (or price lists) for that week are here for your

If your prices are established under section 3, substitute the following statement:

All prices are ceiling prices or below. By OPA regulation, our ceiling prices must be in line with competitive prices charged from April 4 to 10, 1943. Our menus (or price lists). For our first week of operation are here for your inspection.

(b) Establishments that do not use menus. If you do not use menus, you must post the appropriate statement quoted above at a place or places where it can easily be read by your customers, and you must also post your prices for meals and food items and beverages currently offered by you at a place or places where they can easily be read by your .customers

(c) Posting of 40 basic items. Each Office of Price Administration District Director is authorized and directed to issue a posting order requiring every eating and drinking establishment in his district to post its ceiling prices for 40 basic meals, food items, or beverages to be selected by him. The posting order shall conform substantially to the specimen order set forth in Appendix C. Posting orders need not be issued for the Metropolitan Area of San Francisco, Calif.; St. Charles, Missouri; Muskogee, Óklahoma; and Pulaski County, Arkansas, so long as the existing specific dollars and cents ceiling prices for food items and meals sold by eating and drinking establishments in those areas are in effect.

SEC. 17. Adjustments. (a) OPA may adjust the ceiling prices for any eating or drinking establishment under the following circumstances:

(1) The establishment is operating under such financial hardship as to cause a substantial threat to the continuance of its operations; and

(2) Such discontinuance will result in serious inconvenience to consumers in that they will either be deprived of all eating or drinking services or will have to turn to other establishments that present substantial difficulties as to distance, hours of service, selection of meals, food items or beverages offered, capacity,

or transportation; and
(3) By reason of such discontinuance, the same meals, food items, or beverages will cost the customers of the eating or o drinking establishment as much as or more than the proposed adjusted prices.

(b) If you are the proprietor of an eating or drinking establishment which satisfies the above requirements, you may apply for an adjustment of your maximum prices by submitting in duplicate to your OPA District Office a statement

setting forth:

(1) Your name and address and the name and address of your establish-

ment.

- (2) A description of your eating establishment including: type of service rendered (such as cafeteria, table service, etc.), classes of meals offered (such as breakfast, lunch, and dinner), number of persons served per day during the most recent thirty-day period, and any other information which is necessary to describe your establishment and the nature and extent of your operation.

(7) Such other information as your OPA District Director may require.

(c) Applications for adjustment shall be filed in accordance with Revised Procedural Regulation No. 1.

(4) It is otherwise operated as a club and not primarily as an eating or drink-

ing establishment.

If OPA finds that the establishment does not satisfy the above requirements of a bona fide club, it will notify it in writing that it is not exempt from this regulation.

No club organized after the effective date of this order shall be exempt unless and until it has filed a request for exemption with its District Office, furnishing the above information, as may be required, and has been exempted in writing by OPA.

TITLE 41—PUBLIC CONTRACTS

Chapter II—Division of Public Contracts PART 202-MINIMUM WAGE DETERMINATION

DENTAL GOODS AND EQUIPMENT MANUFACTUR-ING INDUSTRY

In the matter of the determination of the prevailing minimum wage in the dental goods and equipment manufacturing industry.

This matter is before me pursuant to section 1 (b) of the Act of June 30, 1936 (49 Stat. 2036; 41 U.S.C. Supp. III, 35), entitled "An act to provide conditions for the purchase of supplies and the making of contracts by the United States, and for other purposes," otherwise known as the Walsh-Healey Public Contracts Act.

On March 15, 1944, the Acting Administrator of the Division of Public Contracts of the United States Department of Labor issued a Notice of Opportunity to Show Cause on or before April 30, 1944, why I should not amend the prevailing minimum wage determination for the Dental Goods and Equipment Manufacturing Industry, issued by me on September 8, 1941, by increasing the prevailing minimum wage from 35 cents an hour to 40 cents an hour for the Consumable Goods Division of this Industry, and by permitting the employment of learners at subminimum rates in accordance with the present applicable regulations issued by the Administrator of the Wage and Hour Division under the Fair Labor Standards Act of 1938,

The Notice sets forth that: (1) The minimum wage required to be paid by manufacturers of dental goods and equipment subject to the provisions of the Fair Labor Standards Act. of 1938 became 40 cents an hour, pursuant to the Wage Orders of the Administrator of the Wage and Hour Division for the Chemical, Petroleum and Coal Products, and Allied Manufacturing Industries offective February 7, 1944, the Metal, Plastics, Machinery, Instrument, and Allied Industries effective September 13, 1943, the Rubber Products Manufacturing Industry effective July 28, 1941, and the Stone, Clay, Glass, and Allied Industries effective December 27, 1943; (2) substantially all employees subject to any prevailing minimum wage determination for the Dental Goods and Equipment Manu-

facturing Industry are engaged in commerce or in the production of goods for commerce, and consequently these Wage Orders have the effect of establishing not less than 40 cents an hour as the prevailing minimum wage in the Dental Goods and Equipment Manufacturing Industry; and (3) that it appears advisable to amend the wage determination for the Dental Goods and Equipment Manufacturing Industry by providing that learners may be employed in the Industry at subminimum rates in accordance with the present applicable regulations issued by the Administrator of the Wage and Hour Division under the Fair Labor Standards Act of 1938.

This notice was sent to trade unions, trade associations, and publications and was duly published in the Federal Register on March 30, 1944 (9 F.R. 3431). No objections, protests, nor any statements in opposition to the proposed amendment have been received.

Upon consideration of all the facts and circumstances, I hereby determine:

§ 202.39 Dental goods and equipment manufacturing industry. The minimum wage for employees engaged in the performance of contracts with agencies of the United States Government, subject to the provisions of the Act of June 30. 1936 (49 Stat. 2036; 41 U.S.C. 35) for the manufacture or furnishing of any one or more of the hereinafter designated products of the Dental Goods and Equipment Manufacturing Industry shall be 40 cents an hour or \$16.00 per week of 40 hours, arrived at either upon a time or piece work basis; Provided, That learners may be employed at subminimum rates in accordance with the present applicable regulations issued by the Administrator of the Wage and Hour Division under the Fair Labor Standards Act of 1938; Provided further, That apprentices may be employed in the manufacturing or furnishing of any one or more of the durable products of the industry at subminimum rates of pay if their employment conforms to the standards of the Federal Committee on Apprenticeship.

Notices

FEDERAL POWER COMMISSION.

KENTUCKY NATURAL GAS CORP.
[Docket No. G-558]

NOTICE OF APPLICATION

JUNE 27, 1944.

Notice is hereby given that on June 24, 1944, Kentucky Natural Gas Corporation, a Delaware corporation having its principal place of business in Owensboro, Kentucky, filed with the Federal Power Commission its application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize the construction and operation of the facilities hereinafter described.

Applicant asserts that it is a natural gas company as defined in the Natural Gas Act, and that it owns and operates a natural gas pipe line system in the States of Kentucky, Indiana, and Illinois. It is alleged by the applicant that its present sources of supply of natural gas have become inadequate, and that it will be necessary for it to obtain some other source or sources of supply in order to meet its peak-day requirements.

The proposed construction consists of a 16-inch gas pipe line approximately 18 miles in length, extending from the most southern point of its existing pipe line at Russellville, Kentucky, in a southeasterly direction to a proposed point of interconnection with the pipe line of the Tennessee Gas and Transmission Company now under construction. It appears from the application that Tennessee Gas and Transmission Company is willing for the applicant to establish a physical connection between the pipe line facilities of the two companies, and to discuss the execution of a contract for a natural gas supply to the applicant if and when some portion of the volume to be transported by the Tennessee Gas and Transmission Company should become available for delivery to the applicant; and that such connection might be available for emergency deliveries of natural gas to the applicant upon orders or authorization of appropriate Federal agencies.

Any person desiring to be heard or to make any protest with reference to said application should, on or before the 13th day of July 1944, file with the Federal Power Commission a petition or protest in accordance with the Commission's provisional rules of practice and regulations under the Natural Gas Act.

WAR FOOD ADMINISTRATION.

Office of Distribution.

PHILADELPHIA, PA., MARKETING AREA HANDLING OF MILK

Notice of report and opportunity to file written exceptions with respect to a proposed marketing agreement and to a proposed amended order, regulating the handling of milk in the Philadelphia, Pennsylvania, marketing area.

Pursuant to § 990.12 (a) of the rules of practice and procedure (7 GFR Cum. Supp., 900.1-900.17; 7 F.R. 3350; 8 F.R. 2815), Office of Distribution, War Food Administration, notice is hereby given of the filing with the hearing clerk of this report of the Director of Distribution with respect to a marketing agreement and to an amended order regulating the handling of milk in the Philadelphia, Pennsylvania, marketing area.

Interested parties may file exceptions, to the report with the Hearing Clerk, Room 1331, Department of Agriculture, Washington, D. C., not later than the close of business on the 8th day after publication of this notice in the Federal Register. Exceptions should be filed in quadruplicate.

The proceedings were initiated by the Office of Distribution upon receipt of a petition from the Inter-State Milk Producers Cooperative, Inc., for a public hearing to receive evidence on several amendments they proposed. Other amendments were also proposed by handlers. Following this request, and after consideration of the proposals, notice of the hearing was issued on January 13, 1943, and the hearings were held on January 23, 24, and 25, 1943, at Philadelphia, Pennsylvania.

Upon the record of this hearing the order was revised by increasing the Class I price. Action upon the other proposals was deferred until after further hearing.

In August 1943, the Inter-State Milk Producers Cooperative petitioned the War Food Administrator for a public hearing to receive evidence on the need for higher producer prices in the Philadelphia market. Later they submitted additional proposed amendments. Other amendments were proposed by handlers. Following these requests, and after consideration of the proposals, notice of hearing was issued on September 15, 1943, and the hearings were held on September

23 and 24, and October 5, 1943, at Philadelphia, Pennsylvania.

This hearing included, in addition to the industry proposals, consideration of several proposals for amendment made by the Dairy and Poultry Branch, Office of Distribution, upon some of which evidence had been received at the hearings held on January 23, 24, and 25, 1943, but upon which action was deferred until after further hearing.

On March 29, 1944, the hearing on these same issues was reopened at the instigation of the Dairy and Poultry Branch, Office of Distribution. The testimony at this hearing, March 29 and 30, 1944, brought up to date the facts relative to the issues on which action had been postponed.

The major issues developed at these hearings were concerned with (1) revision of the definition of handler and the definition of producer to conform to the needs of the market in relation to supplies, (2) the allocation to each class of milk transferred from one handler to another, (3) revision of the class prices, (4) price differentials for place of receipt of milk allowed handlers in purchasing milk from producers and used by them in distributing payments to producers, (5) the method of pricing Class I sales outside the marketing area, (6) the classification of milk received from sources other than producers, (7) flat price payments, (8) butterfat differentials used in paying producers, (9) premiums for Grade A milk, (10) the classification and pricing of so-called "distress" milk, (11) the basis of assessing handlers for the cost of administering the order, and (12) the substitution of a definition of "War Food Administrator" for the term "Secretary."

With respect to these issues it is concluded that:

The definition of "producer" should be revised to describe more accurately the regular supplier of the fluid market. During the short period of production in the Philadelphia market for the past 2 years, handlers have purchased large quantities of milk from sources other than "producers" in order to supply the fluid requirements of the market. It has been necessary to purchase this extra milk for less than a full delivery period if the handler did not wish to extend his regular producer supply to include a so-called emergency source. As long as these supplies are of an emergency nature there appears to be no necessity for bringing them under the producer definition, nor is there any need for restricting such purchases beyond the protection afforded producers in the allocation of the Class II milk so that producers carry not more than 10 percent if a handler is purchasing emergency milk. The plant list has been amplified by adding to the listed producer milk plants those plants which supplied the market on more than 20 days during each of the delivery periods, October, November, and December, 1943. The confusion arising from the differentiation between "plants at which milk is received from producers" and "plants at which milk is not received from producers" should be removed by adding definitions of "producer milk plant" and "nonproducer milk plant."

(2) The maximum quantity of producers' milk transferred from one handler to another that may be allocated to Class II should be the total quantity of milk used by the purchasing handler in such class during the delivery period. This amendment would permit a handler who purchases milk through country plants to purchase surplus milk already in other handlers' city plants and keep his own Class II milk in the country plant. He would designate the milk purchased from other handlers as Class II although he may have used it as Class I in his city plant. This provision will maintain the same utilization of all producers' milk and will encourage savings in transportation of milk.

(3) No change should be made in the Class I price in view of the fact that the price program announced by the Director of Economic Stabilization in March 1943 restricts the adjustment of class prices to reflect changes in costs of producing milk. The dairy production program which is not inconsistent with the stabilization program provides for a direct subsidy payment to producers to cover the increased cost of producing milk. Rates of payment have been announced by the War Food Administrator for the period through March 1945.

The Class II price should be revised in order to bring the skim value of that class in line with the market value of skim milk which has increased materially due to the demand for skim milk solids for food. The increase should be accomplished by eliminating the animal feed factor from the skim milk powder price used in the price formula. The objection to eliminating the animal feed factor from the skim milk value in the Philadelphia area while the New York market still retains the factor, has been considered. This objection hardly seems substantial enough to set aside the proposed adjustment in the price which handlers pay for skim milk used in those products which they carry as a part of their milk trade and ice cream business.

Class II skim at this proposed price will cost handlers less than skim milk solids in the form of condensed or powdered skim which handlers purchase at times to supplement skim milk in the manufacture of cottage cheese and ice cream.

The testimony relative to costs of handling Class II milk indicates that costs are not greater than the present formula allowance of 21½ cents in the Class II butterfat value plus 33¾ cents in the skim milk formula. It is not necessary then to enhance the allowance by the use of a price which reflects less than the market value of the milk.

In order to avoid any disruption of the market for Class II milk while the New York pricing lags in adjustment, it is proposed that milk which is used in surplus milk manufacturing plants should take a lower price based on the prices paid by two evaporating plants and one milk chocolate manufacturer with plants in the Philadelphia milkshed. The products on which the lower price should be permitted during 6 months of the year are evaporated milk, milk chocolate, milk powder, nonfat dry milk solids, and cheese other than cottage cheese. This provision is recommended to provide for the sale of what is termed "distress milk" in the Philadelphia area. The seasonal provision should discourage the inclusion of manufacturing plants in a handler's pool on a year-round basis, but it is made broad enough to take care of the usual surplus milk period whether it comes late or early.

(4) Provisions governing zone price differentials allowed handlers should be rewritten in order to show more clearly how the allowances by classes of milk are combined to form the zone differentials affecting the cost of milk at various plants. The present order provides for certain differentials which apply to Class I milk, others which apply to Class II milk, and still others which apply to all milk regardless of use. The record shows that the price differentials for place of receipt of milk should be definitely related to the class in which the milk is used, in order to accomplish the goal of equal costs to each handler for

each use of milk.

The Class I differential rates in the nearby area should be increased slightly to adjust for the fact that there would be no Class II deduction allowed. The present rates were established on the basis of the economic advantage to the producer in delivering 100 pounds of milk at one place or another. However, as the record indicates, this economic advantage is also related to the purchasing handler's precentage of total use in Class Therefore, the factors determining whether a producer will deliver to one place or another are both the cost of delivering the milk to each plant and the blend price at each plant. The blend price reflects the handler's percentage of use in Class I. The Class I differentials which would reflect the cost of handling all milk have been established according to the average utilization of Class I and Class II in the area. This method would permit the handler in the nearby area who has a higher than average use of Class I milk to buy his milk at slightly less than he is now paying. Producers should not object to this since a 10 percent above average use of Class I would be needed to permit a handler to deduct an additional cent per 109 pounds more than he is now deducting, and at present prices the 10 percent higher use would result in a price 8 cents above the average.

The characteristics of handlers' plants were discussed fully in the record and this testimony confirms the soundness of the use of the plant location as the best method of establishing differentials which affect the price of milk at different places of receipt.

Since the plant handling allowance for receiving milk and separating cream exceeds the Class I allowance by 21/2 cents per hundredweight, the 3-cent extra handling allowance does not appear to be necessary for the handling of Class II milk in the country. It was proposed that the extra 3 cents be dropped from the country handling allowance on all milk but conclusive evidence that the factor should be dropped was not developed.

A proposed amendment to the order would have reestablished the rule for

applying class price zone differentials on the basis that milk nearest the marketing area is Class I. The evidence in the record does not justify the adoption of such an amendment. Since the pattern of the Philadelphia market is such that nearby milk is not considered by handlers to be more valuable for Class I sales (excluding handling and transportation costs), no particular group of producers can be designated as more entitled to the Class I market than another group. Each group then is entitled to an equal share of the Class I utilization and must bear an equal share of the Class II utilization and the cost of getting their Class I milk and Class II cream to the market. The proposed amendments would reflect to the producers the value of their milk as handlers pay for it. This recommended change in the application of differential payments would make more explicit their effect upon producers' prices. It would do away with the device in the present order which has operated to enhance the price at country stations at the expense of the price at the city.

(5) The out-of-area price structure should be retained. Due to the rigidity of prices under the stabilization program, it is not considered advisable to drop the out-of-area price structure at this time.

(6) A handler should be permitted to allocate milk received from sources other than producers to Class I if he does not have in his producer plant system more than 10 percent of producers' milk used. in Class II. If producers are not supplying the market, it does not appear to be reasonable to require nonproducer milk to carry all of the reserve for Class I use which falls into Class II. On the other hand, producers who regularly supply the market should be protected from the influence of these irregular supplies on their blend price. The 10 percent reserve represents the amount of Class II carried in relation to all Class I during the short months of 1942.

(7) The flat price payment plan should be removed from the order since it was not used by handlers to avoid keeping records of utilization as the authors of the order intended and it might be used now to circumvent the order by paying a lower price than would otherwise be veguired.

(8) The butterfat differential to be used in paying producers should be increased from 4 to 5 cents per point in order to bring it more in line with the increases in the price paid to producers for milk and the increased cost of butterfat to handlers. The average minimum price paid to producers has increased steadily since April 1942. The butterfat differential paid by handlers has risen during the same period from 4½ cents to as much as 7 cents.

(9) The plan for Grade A premiums should not be changed upon the evidence in the record at this time. There are indications in the record that a uniform method of distributing these payments to producers should be prescribed by the order but the information regarding the various payment plans which now are in operation is not sufficiently complete

to form the basis for establishing a uniform system.

(10) The disposition of milk which is in excess of the fluid needs of the market should be expedited by the removal of the rule which limits the outlet for such milk to plants which have disposed of less than 20 percent of their receipts as fluid milk. The provision should be amended to require that the purchasing plant show that a quantity of milk has been manufactured which is equal to the quantity received from the producer milk plant. The "20 percent rule" was not intended to limit the outlets for surplus milk. It was considered a "rule of thumb" to characterize a plant that would be buying milk for use in manufacturing. The rule appears to be more confining than is necessary under present circumstances.

(11) The basis of assessment should be all milk received from producers at producer milk plants and all milk received from nonproducer milk plants which is allocated to Class I utilization. This will apportion the cost of administering the order more equitably over all handlers since some handlers purchase substantial quantities of nonproducer milk to supplement their supplies from producers.

(12) A definition of "War Food Administrator" should be substituted for "Secretary" since the powers and duties of the Secretary with respect to functions required by the Agricultural Marketing Agreement Act of 1937 have been transferred to the War Food Administrator by Executive Orders of the President of the United States. The definition provides for the continued operation of the order under the authority of some other "officer or employee of the United States Department of Agriculture" in the event that the powers and duties pursuant to the act are again transferred.

(13) The duty of the market administrator with respect to making investigations of marketing problems should be cited in the order. Producers and handlers indicated in the record that certain problems required thorough study.

The following proposed amended order is recommended as the detailed means by which these conclusions may be carried out. The proposed marketing agreement is not included in this report because the proposed amendments applicable to it would be the same as those set forth below with respect to the amended order.

PROPOSED AMENDED ORDER REGULATING THE HANDLING OF MILK IN THE PHILADELPHIA, PENNSYLVANIA, MARKETING AREA

(9) Promptly verify the information contained in the reports submitted by handlers.

(10) At the request of the War Food Administrator, investigate supply, demand, organization, structure, and other economic aspects of the market and furnish information relative to proposals for amendments to the terms and provisions hereof.

Sec. 3. Classification of milk— (a) Basis of classification. Milk received by each handler, including milk produced by him, if any, shall be classified, in the classes set forth in paragraph (b) of this section, in accordance with its utilization by such handler, subject to paragraphs (c), (d), and (e) of this section.

(b) Classes of utilization. The classes of utilization of milk shall be as follows:

(1) Class I milk shall be all milk (i) sold, distributed, or disposed of as or in milk, including sales of skim milk and flavored milk drinks, containing not more than 18 percent butterfat and including all milk or skim milk disposed of from a handler's plant to retail establishments which dispose of milk for both fluid and other uses, and (ii) all other milk not accounted for as Class II.

- (2) Class II milk shall be (i) all milk disposed of in products other than those included in section 3 (b) (1) (i), and (ii) all milk accounted for as actual plant shrinkage but not to exceed 2 percent of the milk received from producers: Provided, That if milk or cream is received from producers, from other handlers, or from other plants, such actual shrinkage shall be prorated between the milk received from each source in proportion to the volume of milk and cream received from each.
- (c) Transfers of milk. Milk or skim milk transferred to another handler or to a nonproducer milk plant shall be Class I unless such milk was disposed of for use in Class II products and the receiving handler or nonproducer plant has used in such products a quantity of milk or skim milk equivalent to the milk or skim milk received during the month from producer milk plants under an agreement for use in Class II products.
- (d) Transfers of cream. Cream received or disposed of by a handler shall be considered Class II, and the pounds of butterfat in cream received during the month shall be allocated to the butterfat used to make butter before any butterfat in milk received is allocated to butterfat used to make butter.

(e) Allocation of milk or skim milk received at producer milk plants from nonproducer milk plants

producer milk plants.

(i) The Class I utilization of a handler may be reduced by the amount of milk or skim milk received from nonproducer milk plants: Provided, That the utilization of all producers' milk in all of the handlers producer milk plants during the month is not less than 90 percent Class T.

(ii) The Class II utilization of a handler in butter, evaporated milk, milk powder, nonfat dry milk solids, milk chocolate, and cheese other than cottage cheese, shall be reduced by the amount of milk or skim milk received from non-producer milk plants during the month, which milk or skim milk has not been allocated to Class I utilization under section 3 (e) (i).

Sec. 4. Minimum prices—(a) Class prices. Except as set forth in subparagraph (e) of this section, each handler shall pay, at the time and in the manner set forth in § 961.8, for milk received during each month from producers or an association of producers not less than the following prices, subject to the differentials set forth in paragraphs (c) and (d) of this section:

(1) Class I milk. \$4.05 per hundredweight.

(2) Class II milk. The price per hundredweight during each month shall be the sum of the respective values of butterfat and skim milk, calculated as follows by the market administrator:

(i) Butterfat. Add all market quotations (using midpoint of any weekly range as one quotation) of prices for a 40-quart can of sweet cream approved either for Pennsylvania only, or for Pennsylvania, Newark, and Lower Merion Township, in the Philadelphia, Pennsylvania, market, reported for each week ending within the month by the United States Dapartment of Agriculture (or such other Faderal agency as is au-

thorized to perform this price reporting function), divide by the number of quotations, subtract 28 cents, divide by 33.48, multiply by 4, and subtract 23½ cents: Provided, That for butterfat used to make butter, the price shall be 4.8 times the average of the 92-score butter at wholesale in the New York market, reported daily by the United States Department of Agriculture (or such other Federal agency as is authorized to perform this price reporting function), for the month for which payment is to be made, which shall be known as the "butter-value" for such butterfat.

(ii) Skim milk. Any plus amount which is equal to 7.5 times the average of all hot roller process nonfat dry milk solids quotations for "other brands, human consumption," carlots, bags, or barrels (using midpoint of any range as one quotation), as published for such month in the "Producers' price Eurrent," less 4.5 cents: Provided, That for skim milk in milk or skim milk used to make evaporated milk, milk chocolate, milk powder, nonfat dry milk solids, and cheese, other than cottage, pot, and baker's cheese, during the months of March, April, May, June, July, and August the skim milk value shall be reduced by any plus amount determined as follows:

(a) Adjust the Class II price otherwise applicable under this paragraph by the butterfat differential determined under section 4 (c) to arrive at a price for milk of 3.5 percent butterfat content, and

(b) Subtract from that price the average of the basic prices paid to farmers for milk of 3.5 percent butterfat f. o. b. the following plants:

Pet Milk Company, Greensboro, Md. Hershey Chocolate Company, Hershey, Pa. Carnation Company, Cambridge Springs,

(b) Emergency price provision. Whenever the provisions hereof require the market administrator to use specific price (or prices) for milk or any milk product for the purpose of determining class prices or for any other purpose, the market administrator shall add to the specified price the amount of any subsidy or other similar payment, being made by any Federal agency in connection with the milk, or product, associated with the price specified: Provided, That if for any reason the price specified is not reported or published as indicated, the market administrator shall use the applicable maximum uniform price established by regulations of any Federal agency plus the amount of any subsidy or other similar payment: Provided further, That if the specified price is not reported or published and there is no applicable uniform price, or if the specified price is not reported or published and the War Food Administrator determines that the market price is below the applicable maximum uniform price, the market administrator shall use a price determined by the War Food Administrator to be equivalent to or com-

parable with the price specified.
(c) Butterfat differential. The Class I and Class II prices shall be subject to a butterfat differential for each one-tenth of 1 percent variation above or below 4.0

percent calculated as follows: divide the average of the cream quotations used in calculating the Class II price by 334.8, and subtract 0.67 cent; or in the case of butterfat in Class II to which the "butter-value" is applicable, divide the "butter-value" by 40.

(d) Differentials for place of receipt of milk. The prices set forth in paragraph. (a) of this section except Class II milk used to make evaporated milk, milk chocolate, milk powder, nonfat dry milk solids, and cheese, other than cottage cheese, during the months of March, April, May, June, July, and August, shall be reduced by the amounts set forth below for milk received from producers at producer milk plants located in the zones for which deductions are shown. If the deduction for Class I milk results in a price for Class I milk at any plant belowthe price of Class II milk at that plant, the allowable deduction shall be reduced by the amount by which such Class II price exceeds such Class I price:

For the purpose of this paragraph, the Class II milk at each plant of a handler who receives milk from more than one plant shall be determined to be that milk used or disposed of in Class II at such plant which is not a bottling and pasteurizing plant, plus a prorata share of Class II milk at the handler's bottling and pasteurizing plant in proportion to the total receipts at the latter plant which were received from the producer milk plant.

The distance of any plant from the City Hall in Philadelphia shall be that recognized by the Interstate Commerce Commission for rate making purposes on highways over which the Highway Departments of the several States permit milk tank trucks to move, or if no such

distance is recognized, the distance shall be that ascertained and announced by the market administrator.

(e) Class I milk disposed of outside the marketing area. The price to be paid by handlers for Class I milk disposed of outside the marketing area on any wholesale or retail routes from which no milk is disposed of in the marketing area on the same trip, in lieu of the price otherwise applicable pursuant to this section, shall be, as ascertained by the market administrator, such price as is being paid to farmers in the market where such milk was disposed of, for milk of equivalent use, less the applicable transportation allowance in such outside market, but in no case more than 64 cents: Provided, That Class I milk disposed of in markets where the market administrator is unable to determine such a price, and to Government institutions and establishments on a basis of bids, the Class I price plus or minus the applicable differentials specified in this order shall apply: And provided further, That when sold in an area regulated by another marketing order of the Secretary the price effective under such order shall apply.

Sec. 5. Reports of handlers—(a) Periodic reports. On or before the 8th day after the end of each month each handler, with respect to milk or cream which was, during such month, (1) received from producers, handlers, or other sources; and (2) produced by such handler, shall report to the market administrator, in the detail and on forms prescribed by the market administrator, as follows:

(i) The receipts at each plant from producers who are not handlers;

(ii) The receipts at each plant from any other handler, including any handler who is also a producer;

(iii) The quantity, if any, produced by such handler;

(iv) The receipts at each plant from any other source;

(v) The respective quantities of milk and milk products disposed of or on hand, with the butterfat content thereof, including the quantities of milk, skim milk, or cream disposed of to each non-producer milk plant for use in each class; and

(vi) The shipments of milk to the marketing area from each plant.

(b) Reports of handlers who receive no milk from producers. Handlers who receive no milk from producers shall make reports to the market administrator at such time and in such manner as the market administrator may require.

(c) Reports as to producers. Each handler shall report to the market administrator:

(1) Within 10 days after the market administrator's request, with respect to any producer for whom such information is not in the files of the market administrator, and with respect to a period or periods of time designated by the market administrator, (i) the name and address, (ii) the total pounds of milk received, (iii) the average butterfat test of milk received, and (iv) the number of days upon which milk was received;

(2) As soon as possible after first receiving milk from any producer, (i) the name and address of such producer, (ii) the date upon which such milk was first received, and (iii) the plant at which such milk was received.

(d) Reports of payments to producers. Each handler shall submit to the market administrator on or before the 25th day after the end of each month his producer pay roll for such month which shall show for each producer (1) the net amount of such producer's payment with the prices, deductions, and charges involved, and (2) the total delivery of milk with the average butterfat test thereof.

(e) Outside cream purchases. Each handler shall report as requested by the market administrator his purchases, if any, of sweet cream showing the quantity and source of each such purchase and the cost thereof at Philadelphia.

(f) Verification of reports. Each handler shall permit the market administrator or his agent, or such other person as the Secretary may designate, during the usual hours of business, to (1) verify the information contained in reports submitted in accordance with this section, and (2) weigh milk received from each producer and sample and test milk for butterfat. In establishing the classification of milk as required in § 961.3, the burden rests upon the handler who receives milk from producers to account for the milk and to prove to the market administrator that such milk should not be classified as Class I milk.

Sec. 6. Application of provisions—(a) Handlers who receive no milk from producers. The provisions hereof, except those set forth in section 5, shall not apply to a producer-handler who receives no milk from producers nor to a handler whose sole source of milk supply consists of receipts from other handlers.

SEC. 7. Determination of uniform prices to producers—(a) Computation of the value of milk for each handler. For each month the market administrator shall compute, subject to the provisions of section 6, the value of milk of producers disposed of by each handler, by (1) multiplying the hundredweight of such milk in each class, computed pursuant to section 3, by the prices applicable pursuant to section 4, plus or minus the applicable differentials in section 4; and (2) adding together the resulting values.

(b) Computation and announcement of uniform price for each handler. The market administrator shall compute and announce for each handler the uniform price per hundredweight of milk received by him at each plant from producers during each month as follows:

(1) Add to the value computed pursuant to paragraph (a) of this section the amount of the adjustment to be made pursuant to section 8 (d), and add or subtract the amount to be subtracted or added, respectively, by the handler pursuant to section 8 (c)

(2) Divide the amount computed in subparagraph (1) of this paragraph by the total quantity of milk received from producers, including milk of his own pro-

duction; and

(3) On or before the 15th day after the end of each month, notify each handler and publicly announce the uniform price computed for each handler pursuant to this section with the differentials applicable pursuant to section 8.

Sec. 8. Payments for mills—(a) (1) Semimonthly payments. On or before the last day of each month each handler shall make payment to producers for milk delivered during the first 15 days of such month at not less than a rate per hundredweight which he estimates will be his uniform price for such month.

(2) Final payment.
